## 21-ESK Gard Elite Tenor Trombone GigBag

The Elite series from GARD offers superior protection with a semi-rigid polymer inner shell surrounding the gig bag interior for superior protection and durability.

- Handcrafted from Nylon Cordura ballistic synthetic fabric with Light Tan Leather Accent.
- Large outside pocket allowing more storage space for your mouthpiece, valve oils, cleaning cloth.
- Standard double zipper opening gives wider access for easy storage.
- Fits Tenor Trombones.
- GARD's patented mid-bag suspension system offers superior protection.

Gard Bags

## SAFETY

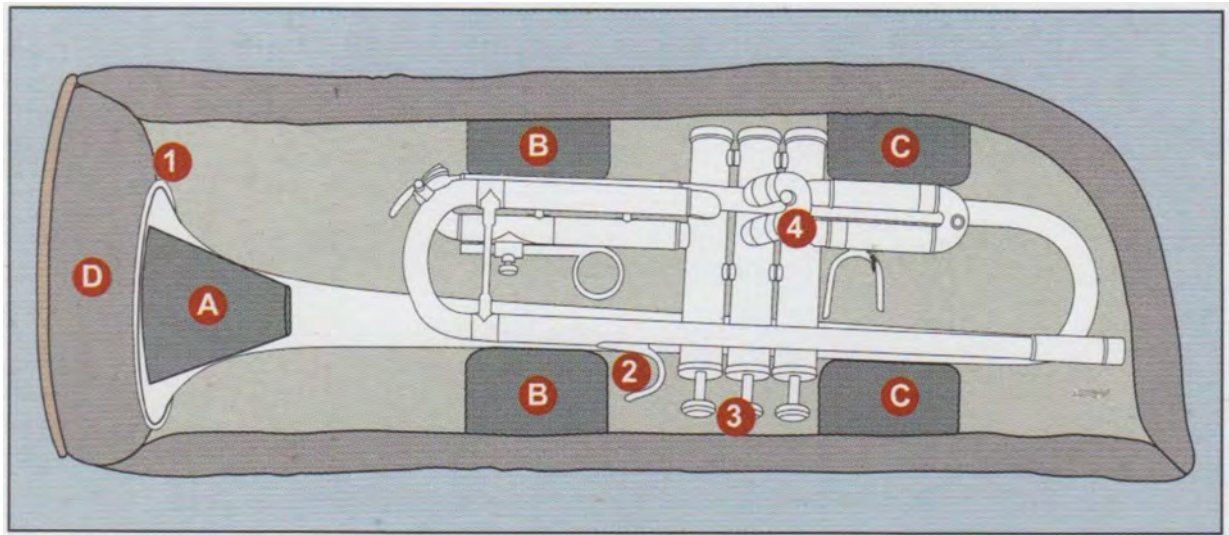

**MID BAG SUSPENSION** - Best protection for your Horn in its weight class. The Instrument is suspended in mid-air inside the bag.

The **Mid Bag Suspension** system in Gard Bags is a protective combination of dense foam pads and cones (**A, B & C**) in Gig Bags and dense foam cubes and cones in Wheelies. It holds the music instrument by its robust parts, leaving the delicate parts suspended in mid-air (**2,4**). Thus, about 9 out of 10 times, the music instrument will escape damage when dropped or on impact.

**No Gaps:** For all round total protection, there is no gap under the seam. A removable wooden disc padded with dense foam (1) ensures double protection, under the seam, to the vulnerable bell area of your music instrument.

In ordinary bags the foam protection stops short ½” (12mm) on both sides of the seam. Along the seam, there is a 1” (25mm) gap in foam protection. The bell lip of the music instrument slips into this unprotected gap and is easily damaged by any impact.

**No gap under the Zipper:** For all-round total protection, there is no gap under the zipper. A band of thick hard foam, called **Zipper Guard**, is sewn under the zipper (3). It prevents the music instrument from damage by impact or by scratches from the zipper.

**SAFETY :** The **MID-BAG-SUSPENSION** - The best protection for your HORN in its weight class. The instrument is suspended in Mid-Air inside the Bag.

**Additional Safety Features : Dense foam :** Specially formulated dense foam is used in the bags. This foam is expensive, dense and highly impact resistant. We test the hard foam by bouncing a 300gm glass ball on the foam laid over a glass plate. Only if the glass ball or glass plate does not break, chip or crack, is the foam approved for use. Ordinary bags use soft foam, which does not protect.

**GARD  
BAGS**

WHY Gig Bags

GardBags

**MIDBAG  
SUSPENSION**  
Improved for safety

### COMFORT

ROLLING WHEELIES/TROLLIES - Arrive fresh for your gig and perform your best.

Must-have for professionals, seniors and musicians with special needs.

Similar to the very popular pull-behind luggage, GARD WHEELIES WILL DELIGHT ANY PLAYER WANTING TO ARRIVE FRESH AT HIS GIG, by removing the weight of their instruments from their back and shoulders. The bags are made with the same quality, craftsmanship, and attention to detail as the GARD gig bags. All wheelies/trollies feature the mid-bag suspension system enabling the best protection in its weight loss. Each bag features an outer shell of genuine leather or durable Synthetic fabric, and is well padded inside, with dense foam. The wheel rack is lightweight and can be lifted effortlessly, making it way popular among professional musicians, senior citizens, people with special needs, for example those who have undergone surgery and have been advised not to lift heavy objects.

**GARD** Wheelies are manufactured in 2 options: Full-Leather and Synthetic with Leather Trim.

WHY Gig Bags

99

## JENS LINDEMANN

**Jens Lindemann**, eminent trumpet artist and the first classical brass soloist to be awarded Canada's highest civilian honour - Order of Canada, has this to say on GARD BAGS : "I have been a fan of rolling cases my entire career. The concept of taking the weight of three trumpets and case off my shoulders is simple common sense for reducing unwanted tension on the body.

When I first saw a Gard wheelie, I was struck by its attractive looks, and then discovered its many practicalities, such as the ability to convert the inside of the case for various trumpets, the expandable front pocket for extra mutes and music, the extra inside storage flaps... The wheelie can also be used as a backpack.

Finally, I had found a case that could do everything. The Gard Triple Trumprt wheelie conforms to airline carry-on standards. I have even confidently hand checked it with flight attendants of smaller aircraft at the door.

I and all the musicians of Brassfire are proud to travel internationally with Gard Bags and wheelies...
