

MSDS FOR PROFESSIONAL COSMETIC PRODUCT

OMNIPLEX SCALP PROTECTOR

1. INFORMATION ABOUT PRODUCT

Formula number: 10.6-2013
Commercial name: OMNIPLEX SCALP PROTECTOR
Product description: Serum rich in soothing active ingredients

2. INFORMATION ABOUT COMPANY

Company: FARMAVITA srl Via Garibaldi, 82/84
22070 Locate Varesino (CO) ITALY

For further information about product directions and characteristics, contact:

Telephone no.: tecnico@farmavita.it
0331 833467

Date of approval: 25/06/2018

Date of revision: -

No vers: 1

3. COMPOSITION/INFORMATION ABOUT INGREDIENTS

The complete list of ingredients is shown on the packaging of the individual products in accordance with Regulation 1223/2009 on cosmetic products. The indicated compositions are inspired by "frame formulations" which represent the category of products, on the basis of "Frame Formulation EAPCCT/COLIPA" system (June 2013 edition), with revisions provided by REG.1223/2009, Art. 2 letter s). These "frame formulations" indicate types of ingredients and their maximum concentration, allowing a rapid identification of products.

Ingredients	Conc. Max (%weight/weight)
Oils, wax and fatty alcohol	until 60
Emollients, humectants	until 40
Additional ingredients	until 10

4. DANGER IDENTIFICATION

The product is safe for people and environment when it is used according to information from the manufacturer. Following information is pertinent after an improper use of product or accident.

Method of use and danger information are indicated on the products.

5. FIRST AID MEASURES

Eye/skin contact: remove contact lenses when used and rinse carefully with plenty of water. In case of persistent irritation, contact a doctor

Ingestion: not induce vomiting. In case of ingestion of relevant quantities of product, consult immediately the nearest Poison Centre .

Inhalation: in case of inhalation bring the subject to the open air. For persistent symptoms of upper respiratory tract irritation, consult a doctor.

6. FIRE-FIGHTING MEASURES

Not inflammable. In case of fire, use water-spray, chemical powder, carbon dioxide

7. ACCIDENTAL RELEASE MEASURES

Pick up the flown product, using sand or sawdust where opportune, and convey it in suitable containers for the drainage according to the rules. Wash with water the contaminated area. Never try to put back the flown product into its original container. Never utilize again the flown product.

8. STORAGE AND HANDLING MEASURES

Manipulation:

- Follow carefully the instructions printed on the package or on the attached sheet/wrapper/label.
- Avoid any use which is different from the instructions;
- Avoid to mix the product with other products, even if similar, or with different substances which are not provided in the specific instructions;
- Never try to put the product back into its original container in order to use it again
- Keep out reach of children

The continuous exposition to detergents (soap, shampoos, liquid detergents) for professional reasons may cause an impoverishment of the hydrolipidic skin and of the corneas, which constitute the skin natural barrier. This impoverishment may give rise to injuries of the skin, which results more exposed to the external agents.

In these conditions, the manipulation of other products used in the daily professional activity without the proper precautions (i.e. gloves or specific DPI), may cause intolerance, which may bring to more serious damages in the long run.

Storage and handling measures

Keep in dry and well aired rooms at room temperature, at temperature not below 5° C and not above 40°C, far from fire, heat springs or working electric machines.

Close well again after using.

FARMAVITA srl

9. OBLIGATORY MEASURES OF PERSONAL AND ENVIRONMENTAL PREVENTION

"In case the manager identifies some risks which can't be avoided with other means, he is obliged to give the workers some adequate Personal Protection Gears (DPI) (art. 77 D.Lgs. 81/08).

The DPI must be in accordance with the rules provided for the Legislative Decret 475/92 (art. 76 D.Lgs 81/08).

The use of DPI given by the manager is obligatory (artt. 20 e 78 del D.Lgs 81/08)".

"The working area must be carefully aired, eventually with a mechanical air change. The areas in which emissions of steam, gases, powders or substances dispersions can verify must be separated and provided with eventual localized aspiration installations or collection systems" (Titolo II del D.Lgs.81/08).

10. PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance:	fluid
Colour:	amber
Odour:	characteristic
pH:	n.a.

11. STABILITY AND REACTIVITY

Stable product at room temperature

12. HEALT INFORMATION

Irritating to eyes (in case of contact). If ingested, it may cause irritation to the gastrointestinal tract. The need to subject workers to a health surveillance program (pre-employment and periodic visits) must be evaluated by the Competent Doctor on the basis of the Risk Assessment Document and the specific knowledge. Workers have the obligation to undergo the health supervision prescribed by the competent doctor

13. ECOLOGICAL INFORMATION
