6.3	Clean Up Procedure	Clean up immediately. Cover with an inert absorbent material. Sweep up and remove to an approved disposal container. Observe local, state and federal disposal regulations.

## SAFETY DATA SHEET

**SECTION 7: HANDLING AND STORAGE**

- 7.1 Handling** Observe good personal hygiene practices. Wash hands thoroughly after use. When handling bulk product, glasses with side shields and protective (disposable) gloves are recommended. Avoid contact with eyes. Never return unused hydrogen peroxide to the original container. Contamination may cause decomposition and generation of oxygen gas, which could result in high container pressures and possible container rupture.
- 7.2 Storage** Storage in large quantities (i.e. warehouses) should be in cool, well-ventilated areas. Keep containers out of direct sunlight and away from combustible materials. Keep cool. Containers should be visually inspected on a regular basis to detect any abnormalities (swollen drums, increases in temperature, etc.). Incompatible materials include combustible materials, strong reducing agents, heavy metals, iron, copper alloys, and organic matter.
