

RJ45 Molded Style Cat6 Shielded and CAT6a Boots - 7.3mm ID - White - 50

Pack CN-BTM73-xx - Specifications

Description

The RJ45 molded style boots are designed to fit most Cat6 shielded and Cat6a cables with diameter of 7.3mm approximately. This molded style boot sits flush with a RJ45 plug and is inserted onto the plug prior to crimping. The protective hood prevents the RJ45 release clip from snagging. The boots are available in 50 packs and in 10 different colors.
