

USB A Male to 5.5mm x 2.1mm DC Plug Power Cable – 28AWG

DCU-5521-xx - Specifications

Description

This power cable consists of a USB A male connector on one end and a 5.5mm x 2.1mm male DC connector on the other end. It is typically used to supply power to 5V devices from a USB port rather than a AC/DC transformer.
