Cable 18AWG FT4

DIG-35MM-xx - Specifications

Description

This digital audio cable has a RCA male on one end and a 3.5mm mono male on the other. It is typically used to connect a 3.5mm digital audio output of a PC to digital coax RCA input of surround sound system.

- Constructed of double shielded, 75 ohm, RG6, 18 awg, digital coax cable for ultra crisp sounding digital audio
- FPE dielectric insulation allows for a stable velocity of propagation therefore minimizing possible timing delays
- Dual shielding includes a 100% aluminum/mylar foil, plus a 95% tinned copper braid
- Cables nominal capacitance is an exceptional 17.3 pf/ft and has a nominal attenuation of 3.10 dB/100ft @ 200Mhz
- High quality, gold plated, heavy duty shielded connectors optimizes connectivity and maintains a clear signal integrity
- The connector backshells are made of a durable, zinc plated metal alloy
- FT4 riser fire rated jacket for in-wall use
- Lead Free, "silver laced" solder is used in order to reduce loss and maximize conductivity
