

Sticklers® Cleaning Stick for MPO/MTP ferrules - 50 per box

FO-MCC-XMT- Specifications

Description

This Sticklers® fiber optic cleaning stick provides critical cleaning of end face connectors located in mating sleeves or the contact areas of receptacles used in high-speed fiber optic networks. It is used to clean larger connectors and lenses, such as SMA, MPO, MTP (with or without pins), also for cleaning lenses within recessed connectors. Sticklers CleanStixx connector cleaning sticks get any fiber network running faster and more reliable than any other cleaning technology on the market today.
