

One-Click Cleaner - Duplex LC - 500+ Duplex Cleans

FO-ONECLICK-DLC - Specifications

Description

This fiber optic one-click cleaner provides thorough cleaning by inserting it into an adapter and pushing until an audible click is heard. It is used to clean duplex LC connectors. The cleaner uses the mechanical push action to advance an optical grade cleaning tape while the cleaning tip is rotated to ensure the fiber end-face is effectively and gently cleansed.

Physical Characteristics

Cleans per Unit 500+ Duplex LC cleans (1000+ LC connector cleans)
