

# 3GHz 90dB Digital Splitters 4-Way

## MB-TVD3-14 - Specifications

### Description

This digital splitter has a F-Type female input on one side and four F-Type female outputs on the other side. It is typically used to split broadband or CATV 5-3000MHz 75Ω sources such as hybrid distribution networks, HDTV, voice, data, modem and digital converter applications to dual outputs.

### Physical Characteristics

Color	Silver
Contacts	Gold-Plated Beryllium-Copper Two-Prong
Housing	Metal Enclosure
Shielding	EMI-RFI
Circuitry	High-Performance Printed Board

### Performance

Frequency	3GHz
Impedance	75Ω
Amplitude	90dB (min)
Loss at 1GHz	8.2dB
Loss at 3GHz	13.0dB
Mounting Holes	2

### Connector(s)

Input	1 x F-Type Female input
Output	4 x F-Type Female output

### Environmental

RoHS	Yes
------	-----

### Packaging Information

Package Quantity	1 - 3GHz 90dB Digital Splitters 4-Way with Plastic Caps
Product Weight	0.1 lbs [0.1kg]
