

8 Outlet Surge Protector - 2400J, 6ft Cord, Down Angle Plug, 2 USB Charging Ports - White

This surge protector features 8 power outlets, 2 USB ports and a 6 foot cord. The 2 USB ports allow for charging of USB devices. It also has 3 outlets with wide spacing to properly fit transformer plugs. The protected/grounded indicator lights show if surge protection is working and if it is plugged into a properly grounded outlet. This can be used with most small home and office appliances.
