

# RG316 SMA Male to SMA Male Right Angle Cable

RF316-1014-xx - Specifications

## Description

This RG316 antenna cable has a SMA male on one end and a SMA right angle male on the other. It is typically used to connect devices that require radio frequency transmissions such as GPS, broadcast, telecommunications, etc. Due to its thin diameter and performance characteristics it is often used in military applications or areas with limited space and high performance requirements.

- Constructed of premium RG316 50 ohm RF coaxial cable
- Heat shrink added on either end for added strain relief
- Heavy duty connectors allow for optimum durability and connectivity

## Physical Characteristics

Cable Type RG316

## Connectors

Connector A SMA Male

Connector B SMA Right Angle

## Packaging Information

Package Quantity Male

Product Weight

Contents 1 Cable

Included in Package 0.04 lbs [0.02kg]
