

**Description**

This commercial grade, coaxial in-ceiling speaker has a 6.5 inch woofer and a frameless design with a magnetic grille. The speaker is intended for indoor use and can be used in both 8ohm and 70V/100V installations. It is also UL2043 rated for use in plenum air spaces. Installation is quick and easy as each speaker comes with a cut-out template for post construction installation.

The woofer is made of polypropylene and has a 0.5 inch PEI dome tweeter which provides premium and long lasting sound quality along with an extremely smooth high frequency response. High-grade rubber edges increase the speakers performance and quality while the sophisticated crossover works to deliver deep bass. They also offer a +/- 3dB adjustment for further customized listening.

**Physical Characteristics**

Mounting Style	In-Ceiling Mount
Speaker Color	Black
Grille Color	White
Dimensions	Ø 286 x 155mm (11.3" x 6.1")
Cutout Size	Ø 265mm (10.4")
Woofer	6.5" Polypropylene Cone
Tweeter	0.5" PEI Dome
Magnetic Grille	Yes
Frameless Design	Yes
Dispersion Angle	120°

**Performance**

Frequency Response	(+/- 3dB) 70Hz - 20KHz
Efficiency	90dB
Transformer Taps	70V: 32-16-8-4-2-1W & 8ohms 100V: 32-16-8-4-2W & 8ohms
Max Power	100W
RMS Power	50W
Nominal Impedance	8Ω

**Approvals**

UL	UL2043 Plenum Rated
c(ETL)us	Yes

**Packaging Information**

Package Quantity	1 Speaker
Product Weight	8.84 lbs [4.00kg]
