

# MPO Outer Housing Removal Tool

TL-MPO - Specifications

## **Description**

This MPO/MTP removal tool is used to remove the outer housing of a MPO/MTP fiber optic connector, typically used to reverse Method A/B pinout or to add guide pins.

Note: Pinout cannot be reversed on singlemode MPO/MTP cable due to the angled face of the connector.

## **Physical Characteristics**

Material                Steel

## **Certifications**

CSA                     Yes

cUL                    Yes

## **Packaging Information**

Packaging Quantity 1

Product Weight      0.65 lbs [0.29 kg]
