

Network Cable Tester for RJ45 UTP/STP, RJ11, RJ12 and BNC Cables

This network cable tester tests the pin assignments accurately of unshielded and shielded RJ45 cables as well as telephone cables (RJ11 and RJ12) and BNC cables. It allows you to determine if the cable is pinned correctly or if it is mis-wired, shorted or has open circuits. The tester has two test modes, fast scroll and slow scroll. The tester is powered using a 9V battery (not included).
