

Ratcheting Crimp Tool for RJ11, RJ12, RJ45 and RJ45 Shielded Plugs with External Strain Relief

TLH-145 - Specifications

Description

This professional modular plug crimp tool crimps a variety for modular plugs which include RJ11, RJ12, RJ45 and RJ45 shielded plugs with external strain relief. The tool can also cut and strip round Ethernet cabling. With its ergonomically designed handles and spring loaded crimp mechanism, this tool reduces user fatigue and delivers a precise crimp.

Physical Characteristics
