

USB 3.1 Type-C Male to A Male Cable 10G 3A - USB-IF Certified - Black

USB-327-xx - Specifications

Description

This USB 3.1 cable consists of a USB type-C male on one end and a USB A male on the other end. It is capable of transferring data at 10Gbps and is typically used to connect USB 3.1 peripherals as well as charge and sync USB Type-C mobile devices. USB 3.1 is backwards compatible with previous generation USB devices and is also compatible with Thunderbolt™ 3 ports.
