

6ft USB 3.1 Type-C Male to B Male Cable 5G 3A - Black

USB-333-xx - Specifications

Description

This USB 3.1 cable consists of a USB type-C male on one end and a USB B male on the other end. It is capable of transferring data at 5Gbps and is typically used to connect USB B peripherals such as printers, external drives or scanners to your USB Type-C laptop or tablet. USB 3.1 is backwards compatible with previous generation USB devices and is also compatible with Thunderbolt 3 ports.
