

USB 2.0 extender over Cat5e/Cat6 (100M)

USB-EC100M - Specifications

Description

This USB extender allows you to extend four USB devices to 100m away from the host (computer) using one Cat5e/6 cable. The extender can also be connected through an Ethernet switch which will double the length to 200m away from the host (100m from the sender to the switch and 100m from the switch to the receiver). This device supports Windows XP, Vista 32bit and 64bit, Windows 7 32bit and 64bit, Windows 8 32bit and 64bit.

This product can only be used with devices which can load the driver. E.g., not compatible with DVRs

Physical Characteristics

Distance	100m Max. Over a CAT5e/6 Cable 200m Max. Through an Ethernet Switch (100m in, 100m out)
Color	Black
