

EXTRA BOLD, EXTRA BRIGHT

INTRODUCING **EXTRA COLORS**

GTX600 Extra Colors model expands our most advanced DTG printer yet even further, with the introduction of orange and green inks for an extended color gamut. Get all the same industrial-level printing features of the standard GTX600, including the built-in humidifier, advanced ink system, degassing and white ink agitation, intelligent platens systems, high print quality and speed, PLUS two additional 5th generation industrial print heads (6 total) and the ability to incorporate two additional colors.

SIX INDUSTRIAL BROTHER PRINT HEADS
