

THE LONGBOARD 350LB

RECTANGULAR 52" X 19.5" IRON BOARD WITH VERAFOAM COVER

If you've been thinking of a larger ironing surface, but you don't require the added flexibility of our two-in-one 320LB, we are pleased to present the all new 350LB - one piece extra large (Longboard) ironing table. The 350LB is perfect for quilters, ironing linens, curtains, crafting and pretty much anything else where an extra large surface will be a benefit. This is a board made without compromise. It was designed to provide maximum stability and features to make pressing less work.

Included is our latest Verafoam technology ironing cover set which incorporates advanced memory foam technology to make ironing easier with the best results possible. A Conex® heat resistant zone at the end of the cover allows you to safely place the steam iron on the table cover... saving you and your wrist the added movement of securing the iron after each press. On top of all the other advanced features from this handmade in Italy table, we also include a convenient storage bin for your notions and other accessories.

THE LONGBOARD 350LB

52" X 19.5" RECTANGULAR IRON BOARD WITH VERAFOAM COVER SET

VERA FOAM

Our in-house product development team introduced a memory foam technology that is **breathable**, **light weight**, and keeps your ironing table surface **wrinkle free** at all times.

CONEX[®] HEAT RESISTANT ZONE:

Conex[®] allows you to place your iron on the board with no worries, this safe zone is heat resistant to over 700°F and is flame retardant.

Simplify your ironing experience with a Conex[®] Heat Resistant Zone.

With innovation at the forefront, Reliable has developed and designed the first ironing table and pressing board with our trademarked **Verafoam** Technology.
