Firmware update

If there is a new version of firmware published form the ENTINA website or wiki website X40 Firmware Update, you can download it to the TF card. The file type is .wfm and name: flash.

Go through with 'Printer Setting' - 'Update'

Printer Setting	?	
Power Save Mode	Update	Parameters
Back	Previous	

Click update it will update firmware automatically.

Please restore the factory settings after the firmware update.

Edit **UI Update**

1. If there is a new version of UI published form the ENTINA website or wiki website X40 Firmware Update, you can download it to the TF card.

2.Download these two files:

DURN CET	B WEEDOW
Dimin_act	WEEDOO!

3.Format your TF card with FAT32 4096 version.

格式化 U 盘 (I:)	×
容量(P):	
3.68 GB	~
文件系统(F)	
FAT32 (默认)	~
分配单元大小(A)	
4096 字节	~
还原设备的默认值(D) 卷标(L)	
格式化选项(O)	
开始(S)	关闭(C)

4.Copy these two files into TF card root directory

DWIN_SET	2020/8/27 18:25
WEEDOUI	2020/8/27 18:39

5. When the printer is off, insert the TF card into the card slot at the back of the display screen, then power on, and the firmware upgrade interface will appear on the display screen.

SD Card Process END !				
.CFG	Files:0000			
Code	Files: 0000			
.LIB	Files: 0000			
.HZK	Files : 0001			
.BIN	Files: 0008			
.DZK	Files: 0000
