MAGNETIC SELF COILING LIGHTNING CHARGER
include the following:

-Aluminum Alloy Head

Fabric coated cord

-Powerful Wire Core

Built for rapid charging and better conductivity

-Strong Magnetic Adsorption

Shaking does not affect charging

-Fixed Connector

Protects wire from breaking

-Rapid Charging

Safe charging without getting hot

-High Speed USB connection

Fast data transfer

-Works with iPhone

Includes Lightning Connector

The ONE Products Magnetic Self Coiling Lightning Cable can be best to keep your wires neat and tidy. It features a 1.8 meter wire so that it can be reached without problem. With the fixed connector, the cable will last longer and will not break easily. This lightning cable features magnets that will coil keep itself in a coil to avoid it being tangled in a mess. It is capable high speed transfers and fast charging with great conductivity.
