100 foot **30** meters

FEATURES:

- 100ft/30m Length Speaker Cable Spool
- 16 Gauge Wire
- Winding Construction for Music and Sound Clarity
- Copper Stranding for High Speed Transfer
- Pairs well with ONE Smart CE Gear Banana Plugs

Deeper Bass, Clearer Highs, and Better Sounds. All of these and more are guaranteed when you use ONE Smart CE Gear Speaker Cable in your home theater application. Built compact with a clear coat casing so you can visibly see the copper plated core, ONE Smart CE Gear Speaker Cable is the perfect solution for high performance installations where space is important. This cable is designed for hooking up speakers to stereo and surround sound home theater systems. The sturdy insulated casing lets you hear more of the music you love, with booming bass, clear treble, and powerful dynamic range that easily surpasses ordinary zip cords and more costly audio cables. Recommended for home theater hookups for which long lengths of cable are exposed.
