JOJO BLOCK Flood / Conservation Unit

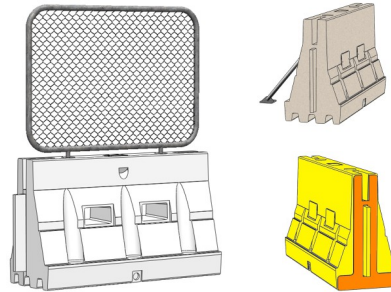

Save Time & Money

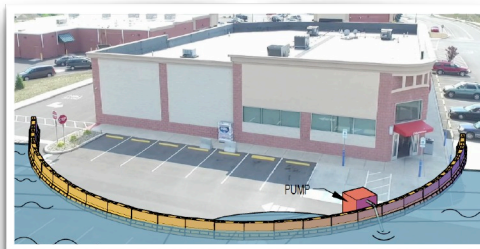

270 Sandbags = **1 JoJo Utility Block**
Average \$675 per foot Average \$110 per foot

The JoJo Block is a patented, lightweight, heavy-duty, durable, UV stabilized, superior strength plastic unit. When filled with water, sand, or other material, provides protection from flooding and other types of soil and beach erosion. One JoJo Block unit can replace 270 sandbags and can be repeatedly reused again and again.
