

CURRICULUM / CONTENT

Cranial Nerve Disorders And The Scientific Osteopathic Approach

1. Introduction

1.1. Organization and General Approach

1.2. General Functions of the Cranial Nerves

1.2.1. Pure Sensory Nerves

1.2.2. Pure Motor Nerves

1.2.3. Mixed Sensory and Motor Nerves

1.2.4. Some of the Cranial Nerves Carry Parasympathetic Fibers

1.2.5. Functions of the Cranial Nerves

1.2.5.1. Overview

1.2.5.2. Functions

1.2.5.2.1. Somato-Motor

1.2.5.2.2. Somato-Sensory

1.2.5.2.3. Viscero-Motor

1.2.5.2.4. Viscero-Sensory

1.2.5.2.5. Special Sensory

2. Olfactory Nerve (I)

2.1. Course and Anatomy

2.2. Function

2.3. Tests

2.4. Pathology

2.4.1. Olfactory Abnormalities - Terminology

2.4.2. General

2.4.3. Nasal and Sinus Disease

2.4.4. Influence of Toxic Fumes, Physical Injury or Nasal Sprays

2.4.5. Neurological Causes of Anosmia

2.4.6. Chemical Causes

2.4.7. Repeated Presentation (Not Really Pathology)

2.4.8. Diseases/Conditions that Produce Specific Odors

2.4.9. Olfactory Reference Syndrome

3. Optic Nerve (II)

3.1. Course and Anatomy

3.2. Function

3.3. Tests

- 3.3.1. Indications for Testing
- 3.3.2. Normal Vision
- 3.3.3. Inspection of the Eyes
- 3.3.4. Vision Field Defects
- 3.3.5. Testing the Disrupted Field of Vision
- 3.3.6. Visual Attention Test
- 3.3.7. Pupil Reflex Test

3.4. Pathology

- 3.4.1. Color Blindness (Dyschromatopsia)
- 3.4.2. Ptosis Eyelid
- 3.4.3. Horner Syndrome
- 3.4.4. Glaucoma
- 3.4.5. Conjunctivitis
- 3.4.6. Tear Deficient States
- 3.4.7. Diabetic Retinopathy
- 3.4.8. Cataract
- 3.4.9. Optic Neuritis
- 3.4.10. Optic Atrophy
- 3.4.11. Proptosis
- 3.4.12. Macular Degeneration
- 3.4.13. Functional Vision Loss (FVL)
- 3.4.14. Changes with Aging
- 3.4.15. Headache Due to an Ophthalmological Problem or Visual Stress

4. Oculomotor Nerve (III)

- 4.1. Course and Anatomy
- 4.2. Function
 - 4.2.1. Somato-Motor Functions
 - 4.2.2. Viscero-Motor Functions
- 4.3. Tests
 - 4.3.1. Indications for Testing
 - 4.3.2. Observation
 - 4.3.3. Eye Motion Test
 - 4.3.4. Pupil Reflex Test
- 4.4. Pathology
 - 4.4.1. Paralysis of the Oculomotor Nerve
 - 4.4.2. Horner Syndrome

5. Trochlear Nerve (IV)

5.1. Course and Anatomy

5.2. Function

5.2.1. Only Somato-Motor

5.3. Tests

5.3.1. Indications for Testing

5.3.2. Eye Motion Test

5.4. Pathology

5.4.1. Trochlear Nerve Paralysis

5.4.2. Clinical Presentation

6. Trigeminal Nerve (V)

6.1. Course and Anatomy

6.2. Function

6.2.1. Somato-Motor

6.2.2. Somato-Sensory

6.3. Tests

6.3.1. Indications for Testing

6.3.2. Sensory Test for the Face

6.3.3. Palpation of the Exit Branches

6.3.4. Muscle Strength of the Mastication Muscles

6.3.5. Masseter Reflex Test

6.3.6. Corneal Reflex Test

6.3.7. Glabella Reflex Test

6.4. Pathology

6.4.1. Possible Findings

6.4.1.1. Supra-Nuclear Lesion

6.4.1.2. Nuclear Lesion

6.4.1.3. Infra-Nuclear Lesion

6.4.2. Trigeminal Neuralgia

6.4.3. Horton's Neuralgia = Cluster Headache

6.4.4. Migraine

6.4.5. 'Tic Douloureux'

7. Abducens Nerve (VI)

7.1. Course and Anatomy

7.2. Function

7.2.1. Somato-Motor

7.3. Tests

- 7.3.1. Indications for Testing
 - 7.3.2. Eye Motion Test
- 7.4. Pathology
 - 7.4.1. Duane Syndrome
 - 7.4.2. Mobius Syndrome
 - 7.4.3. Abducens Nerve Paralysis
- 8. Facial Nerve (VII)
 - 8.1. Course and Anatomy
 - 8.2. Function
 - 8.2.1. Somato-Motor
 - 8.2.2. Somato-Sensory
 - 8.2.3. Viscero-Motor
 - 8.2.4. Special Sense
 - 8.3. Tests
 - 8.3.1. Indications for Testing
 - 8.3.2. Testing of the Facial Muscles
 - 8.3.3. Corneal Reflex Test
 - 8.3.4. Test of the Tear Gland
 - 8.3.5. Tasting on the Anterior 2/3 of the Tongue
 - 8.3.6. Sensory functions of the Tongue
 - 8.3.7. Nasolacrimal Reflex
 - 8.4. Pathology
 - 8.4.1. Peripheral Facial Palsy
 - 8.4.2. Bell's Palsy
 - 8.4.3. Facial Weakness of Central Origin
- 9. Vestibulocochlear Nerve (VIII)
 - 9.1. Course and Anatomy
 - 9.2. Function
 - 9.2.1. Special Senses
 - 9.3. Tests
 - 9.3.1. Cochlear Part
 - 9.3.1.1. Indications for Testing
 - 9.3.1.2. Hearing Test with Whispering Voice
 - 9.3.1.3. Test of Schwabach
 - 9.3.1.4. Test of Weber
 - 9.3.1.5. Test of Rinne
 - 9.3.2. Vestibular Part

9.3.2.1. Indications for Testing

9.3.2.2. Test of Romberg I

9.3.2.3. Test of Romberg II

9.3.2.4. Test of Unterberg

9.3.2.5. Test of Babinski-Weill

9.3.2.6. Pointing Test

9.3.2.7. Test of Hallpike

9.3.2.8. Nystagmus Test

9.3.2.9. Caloric Tests

9.3.2.10. Otoscopy

9.4. Pathology

9.4.1. Vestibular Neuritis

9.4.2. Labyrinthitis

9.4.3. Motion Sickness

9.4.4. Vertigo

9.4.5. Benign Paroxysmal Positional Vertigo

9.4.6. Meniere's Disease

9.4.7. Tinnitus

9.4.8. Presbycusis (hearing loss related to old age)

9.4.9. Otitis Media

9.4.10. Otitis Media Externa

10. Glossopharyngeal Nerve (IX)

10.1. Course and Anatomy

10.2. Function

10.2.1. Somato-Motor

10.2.2. Somato-Sensory

10.2.3. Viscero-Motor

10.2.4. Viscero-Sensory

10.2.5. Special Senses

10.3. Tests

10.3.1. Indications for Testing

10.3.2. Retch Reflex

10.3.3. Inspection of Uvula and Palatine Arches

10.3.4. Sensibility Test of the Posterior Tongue

10.4. Pathology

10.4.1. Glossopharyngeal Nerve Lesions

10.4.2. Glossopharyngeal Neuralgia

10.4.3. Glossopharyngeal Paralysis

11. Vagus Nerve (X)

11.1. Course and Anatomy

11.2. Functions

11.2.1. Somato-Motor

11.2.2. Somato-Sensory

11.2.3. Viscero-Motor

11.2.4. Viscero-Sensory

11.2.5. Special Sense

11.3. Tests

11.3.1. Indications for Testing

11.3.2. Observation

11.3.3. Inspection of Uvula and Palatine Arches

11.3.4. Test of Swallowing

11.3.5. Retch Reflex

11.3.6. Reflexes

11.3.6.1. Gag Reflex

11.3.6.2. Cough Reflex

11.3.6.3. Vomiting Reflex

11.4. Pathology

11.4.1. Unilateral Vagus Injury

11.4.2. Recurrent Laryngeal Nerve Palsy

11.4.3. Vagus Nerve and Dysfunctions in Children

12. Accessory Nerve (XI)

12.1. Course and Anatomy

12.2. Function

12.2.1. Indications for Testing

12.2.2. Somato-Motor

12.3. Tests

12.3.1. Indications for Testing

12.4. Pathology

12.4.1. Paresis or paralysis of:

12.4.2. Torticollis

12.4.3. Adult-Onset Idiopathic Torticollis (Cervical Dystonia)

13. Hypoglossal Nerve (XII)

13.1. Course and Anatomy

13.2. Function

13.2.1. Somato-Motor

13.3. Tests

13.3.1. Indications for Testing

13.3.2. Observation of the Tongue

13.3.3. Infantile Swallowing

13.3.4. Sticking Out of Tongue

13.3.5. Test of the Tongue (Muscle Force)

13.3.6. Test for Tongue (Motor)

13.4. Pathology

13.4.1. Paralysis or Paresis of Tongue Muscles (Hypoglossal Palsy)

14. Terminology and Abbreviations

15. Bibliography
