

CURRICULUM / CONTENT

The Scientific Osteopathic Approach To Patients With Shoulder, Elbow, Wrist And Hand Pain

1. Introduction

2. Important Anatomical Data

2.1. *The Shoulder*

2.2. *The Elbow*

2.3. *The Wrist and Hand*

3. Biomechanics

3.1. *The Shoulder*

3.1.1. Mobility in the Sternoclavicular Joint (SC)

3.1.2. Mobility in the Acromioclavicular Joint (AC)

3.1.3. Mobility in the Scapulothoracic Joint (ST)

3.1.4. Mobility and Stability in the Glenohumeral Joint (GH)

3.1.5. The Scapulohumeral Rhythm (or Glenohumeral Rhythm)

3.1.6. Muscle Strength of the Shoulder

3.1.7. Combined Mobility Amplitude Shoulder

3.2. *The Elbow*

3.3. *The Wrist and The Hand*

4. Pathology

4.1. *General*

4.1.1. Superior Caval Vein Syndrome

4.1.2. Subclavian Steal Syndrome (SSS)

4.1.3. Raynaud's Phenomenon or Disease

4.1.4. Cervical Stenosis

4.1.5. Overstretch or Compression of the Brachial Plexus

4.1.6. Cervicobrachial Neuralgia

4.2. *The Shoulder*

4.2.1. Degenerative Arthritis of the Shoulder

4.2.2. Adhesive Capsulitis (Frozen Shoulder)

4.2.3. Rotator Cuff Tear

4.2.4. Rotator Cuff Calcified Tendonitis

4.2.5. Labrum Tear

4.2.6. Subacromial Bursitis

4.2.7. Impingement Syndrome

4.2.8. Biceps Tenosynovitis or Tear

4.2.9. Subluxations/Dislocations

4.2.10. Shoulder Instability (Hypermobility)

4.2.11. Hill-Sachs Lesion

4.2.12. Bankart Lesion

- 4.2.13. AC Joint Separation
- 4.2.14. Synovial Chondromatosis
- 4.2.15. Functional Lesions of the Shoulder
 - 4.2.15.1. The Sternoclavicular Joint
 - 4.2.15.1.1. Ventral Lesion of the Clavicle
 - 4.2.15.1.2. Dorsal Lesion of the Clavicle
 - 4.2.15.1.3. Cranial Lesion of the Clavicle
 - 4.2.15.1.4. Caudal Lesion of the Clavicle
 - 4.2.15.2. The Acromioclavicular Joint
 - 4.2.15.2.1. Cranial Lesion of the Clavicle
 - 4.2.15.2.2. Ventral Lesion of the Clavicle
 - 4.2.15.2.3. Posterior Lesion of the Clavicle
 - 4.2.15.2.4. Anterior Rotation of the Clavicle
 - 4.2.15.2.5. Posterior Rotation of the Clavicle
 - 4.2.15.3. The Glenohumeral Joint
 - 4.2.15.4. The Scapulothoracic Joint

4.3. *The Elbow, Wrist and Hand*

- 4.3.1. Lateral Epicondylitis (Tennis Elbow)
- 4.3.2. Medial Epicondylitis (Golfer's Elbow)
- 4.3.3. Osteochondritis Dissecans of the Elbow
- 4.3.4. Ulnar Neuritis (Cubital Tunnel Syndrome)
- 4.3.5. Valgus Extension Overload or Pitcher's Elbow
- 4.3.6. Olecranon Bursitis
- 4.3.7. Radial Tunnel Syndrome
- 4.3.8. Anterior Interosseus Median Nerve Syndrome (AIN)
- 4.3.9. Pronator Syndrome
- 4.3.10. Complex Regional Pain Syndrome (CRPS)
- 4.3.11. Gout
- 4.3.12. Nursemaid Elbow
- 4.3.13. The Stiff Elbow
- 4.3.14. Carpal Tunnel Syndrome
- 4.3.15. Rheumatoid Arthritis
- 4.3.16. Osteoarthritis
- 4.3.17. Septic Arthritis
- 4.3.18. Radial Nerve Palsy
- 4.3.19. Ulnar Nerve Palsy (Bicyclist's Neuropathy or Guyon's Canal Syndrome)
- 4.3.20. Wrist Sprain
- 4.3.21. Ganglion Cyst
- 4.3.22. Wartenberg's Syndrome
- 4.3.23. DeQuervain's Disease
- 4.3.24. Intersection Syndrome
- 4.3.25. Scapholunate Dissociation
- 4.3.26. Kienbock's Disease
- 4.3.27. Dupuytren Contracture
- 4.3.28. Paronychia
- 4.3.29. Mallet Finger (or Hammer Finger)
- 4.3.30. Swan Neck
- 4.3.31. Volar Plate Rupture or Avulsion
- 4.3.32. Boutonniere Deformity
- 4.3.33. Trigger Finger or Thumb

- 4.3.34. Jersey Finger
- 4.3.35. Gamekeeper's Thumb
- 4.3.36. Scaphoid Fracture
- 4.3.37. Colles Fracture (Distal Radius Fracture)
- 4.3.38. Volar Plate Rupture
- 4.3.39. Referred Pain Patterns in the Upper Extremity

5. Assessment

5.1. Case History

5.2. Observation and Palpation

- 5.2.1. General Remarks on Palpation
- 5.2.2. The Sternoclavicular Joint
- 5.2.3. The Acromioclavicular Joints
- 5.2.4. The Scapulothoracic Joints
- 5.2.5. The Glenohumeral Joints
- 5.2.6. The Rotator Cuff
- 5.2.7. The Elbow
- 5.2.8. The Wrist
- 5.2.9. The Hand Dorsal Side
- 5.2.10. The Hand Palmar Side
- 5.2.11. General Position of Both Shoulders in Relation with the Cervical Spine and with the Thoracic Spine
 - 5.2.11.1. Observation in the Frontal Plane
 - 5.2.11.2. Observation in the Sagittal Plane
 - 5.2.11.3. Observation in the Horizontal Plane
 - 5.2.11.4. Observation in a Craniocaudal Position
 - 5.2.11.5. Tendencies in the Hanging Upper Extremity

5.3. Provocation Tests

- 5.3.1. General
 - 5.3.1.1. Elevated Arm Stress Test (Roos Test)
 - 5.3.1.2. Sensibility Test Upper Extremity
- 5.3.2. Provocation of the Acromioclavicular Joint (AC)
- 5.3.3. Provocation of the Shoulder
 - 5.3.3.1. Provocation Test of the Supraspinatus Muscle - Neer's Sign
 - 5.3.3.2. Provocation Test for the Supraspinatus Muscle
 - 5.3.3.3. Provocation Test for Impingement – Hawkins-Kennedy Test
 - 5.3.3.4. Provocation Test for a Labrum Tear
 - 5.3.3.5. Lift-Off Test – Provocation Test for the Subscapular Muscle
 - 5.3.3.6. Provocation Test for Instability
 - 5.3.3.7. Biceps Load Test
 - 5.3.3.8. Provocation Test for the Long Head of the Biceps
 - 5.3.3.9. Provocation Test for Superior Labral Tear
- 5.3.4. The Elbow
 - 5.3.4.1. Provocation Test for Golfers' Elbow
 - 5.3.4.2. Provocation Test for Tennis Elbow
 - 5.3.4.3. Varus Stress Test
 - 5.3.4.4. Valgus Stress Test
 - 5.3.4.5. Provocation Test for Cubital Tunnel Syndrome
 - 5.3.4.6. Tinel's Sign at the Elbow

- 5.3.4.7. Provocation Test of the Radiohumeral Joint
- 5.3.4.8. Traction Test of the Radiohumeral Joint
- 5.3.4.9. Traction Test of the Humeroulnar Joint
- 5.3.5. The Wrist and the Hand
 - 5.3.5.1. Traction Provocation Test of the Wrist
 - 5.3.5.2. Compression Provocation Test of the Wrist
 - 5.3.5.3. Intercarpal Compression Test
 - 5.3.5.4. Provocation Test for DeQuervain Disease
 - 5.3.5.5. Provocation Test of the First Carpometacarpal Joint and Scaphoid
 - 5.3.5.6. Provocation Test of the Carpals and Intercarpal Joints
 - 5.3.5.7. Carpal Tunnel Test
 - 5.3.5.8. Tinel Sign
 - 5.3.5.9. Finkelstein Test – Provocation Test for de Quervain’s Disease
 - 5.3.5.10. Digital Allen’s Test (Arterial Provocation)

5.4. *Neurological Tests*

- 5.4.1. Dermatomes
- 5.4.2. Area Nervina
- 5.4.3. Nerve Root Syndromes and Relation with the Upper Extremity
- 5.4.4. Reflexes
 - 5.4.4.1. Scapulohumeral Reflex (C₄-C₆) (Also Called Scapuloperiosteal Reflex) (Long Thoracic Nerve)
 - 5.4.4.2. Radius Periost Reflex (C₅)
 - 5.4.4.3. Biceps Reflex (C₆)
 - 5.4.4.4. Finger Flexion Reflex (C₆-C₈)
 - 5.4.4.5. Triceps Reflex (C₇)
 - 5.4.4.6. Thumb Reflex (C₇-C₈)
 - 5.4.4.7. Pronation Reflex (C₇-T₁)

5.5. *Mobility Tests*

- 5.5.1. Active Tests
 - 5.5.1.1. Active Test of Flexion with Evaluation of the Scapulothoracic Joints
 - 5.5.1.2. Active Test of Horizontal Ad- Abduction with Evaluation of the Scapulothoracic Joints
 - 5.5.1.3. Active Test of Internal and External Rotation Both Shoulders
 - 5.5.1.4. Active Test of Abduction Both Shoulders
 - 5.5.1.5. Active Test of Flexion of the Shoulder with Thoracolumbar Participation
 - 5.5.1.6. Active Flexion/Extension Test of the Elbows
 - 5.5.1.7. Active Pro- and Supination of the Elbows
 - 5.5.1.8. Active Test of the Wrists and Hands
- 5.5.2. Passive Tests
 - 5.5.2.1. Bilateral Test of the Sternoclavicular Joints in Ventral and Dorsal Translation
 - 5.5.2.2. Bilateral Test of the Sternoclavicular Joints in Medio/Cranial and Latero/Caudal Translation
 - 5.5.2.3. Test of the Sternoclavicular Joints in Ventral and Dorsal Translation
 - 5.5.2.4. Test of the Sternoclavicular Joints in Medio/Cranial and Latero/Caudal Translation

- 5.5.2.5. Bilateral Test of the Sternoclavicular Joints in Medio/Cranial and Latero/Caudal Translation
- 5.5.2.6. Mobility Test of the Coracoid Process
- 5.5.2.7. Mobility Test of the Scapulothoracic Joint
- 5.5.2.8. Mobility Test of the Opening of the Angle Between Clavicle and Spina Scapulae
- 5.5.2.9. Mobility Test of the Anterior and Posterior Rotation of the Clavicle Versus the Acromion
- 5.5.2.10. Mobility Test of the Acromioclavicular Joint in Ventral and Dorsal Translation
- 5.5.2.11. Craniocaudal Translation Test of the Glenohumeral Joint
- 5.5.2.12. Dorsal Translation Test of the Glenohumeral Joint
- 5.5.2.13. Ventral Translation Test of the Glenohumeral Joint
- 5.5.2.14. Cranial and Caudal Translation Test of the Glenohumeral Joint
- 5.5.2.15. Test for Flexion of the Shoulder with Lower Ribs and Spinal Participation
- 5.5.2.16. Test for Flexion of the Shoulder with Upper Rib Participation
- 5.5.2.17. Mobility Test of the Elbow in Flexion and Extension
- 5.5.2.18. Mobility Test of the Elbow in Add- and Abduction
- 5.5.2.19. Elasticity Test of the Lateral Capsule
- 5.5.2.20. Elasticity Test of the Medial Capsule
- 5.5.2.21. Mobility Test of the Radial Head in Ventral Translation
- 5.5.2.22. Mobility Test of the Radial Head in Ventral and Dorsal Translation
- 5.5.2.23. Mobility Test of the Radius in Cranial and Caudal Translation
- 5.5.2.24. Mobility Test of the Distal Radioulnar Joint
- 5.5.2.25. Mobility Test of the Wrist in Palmar, Dorsal, Ulnar and Radial Translation
- 5.5.2.26. Mobility Test of the Radiocarpal and Intercarpal Joints
- 5.5.2.27. Elasticity Test of the Transverse Ligament
- 5.5.2.28. Elasticity Test of the Transverse Ligament

5.6. *Muscle Testing*

- 5.6.1. Triceps Muscles
- 5.6.2. Biceps Muscles
- 5.6.3. External Rotators of the Shoulders
- 5.6.4. Internal Rotators of the Shoulders
- 5.6.5. Abductors of the Shoulders
- 5.6.6. Adductors of the Shoulders
- 5.6.7. Horizontal Abductors of the Shoulders
- 5.6.8. Horizontal Adductors of the Shoulders
- 5.6.9. Supinators
- 5.6.10. Pronators
- 5.6.11. Wrist Muscles

6. **Techniques**

6.1. *Mobilizations*

- 6.1.1. General Approach
- 6.1.2. Mobilization of a Latero/Caudal Lesion of the Medial Clavicular Head Against the Manubrium
- 6.1.3. Mobilization of an Anterior Lesion of the Medial Clavicular Head Against the Manubrium

- 6.1.4. Mobilization of a Dorsal Lesion of the Medial Clavicular Head Against the Manubrium
- 6.1.5. Opening the Angle Between the Clavicle and the Spine of the Scapula
- 6.1.6. General Decoaptation of the Acromioclavicular Joints
- 6.1.7. General Mobilization of the Scapulothoracic Joint
- 6.1.8. General Mobilization of the Glenohumeral Joint
- 6.1.9. General Traction of the Glenohumeral Capsule
- 6.1.10. Mobilization of a Cranial Lesion of the Humeral Head
- 6.1.11. Mobilization of the Dorsal Capsule of the Glenohumeral Joint
- 6.1.12. Mobilization of the Elbow in Flexion
- 6.1.13. Mobilization of the Radial Head in Ventral and Dorsal Translation
- 6.1.14. Mobilization of the Radial Head in Distal Direction
- 6.1.15. Mobilization of the Radial Head in Proximal Direction
- 6.1.16. Mobilization of the Wrist in Palmar, Dorsal, Ulnar and Radial Translation
- 6.1.17. Mobilization of the Radiolunate Joint in Circumduction
- 6.1.18. Mobilization of the Radio-Ulnar Joint in Translation
- 6.1.19. Mobilization of the Radial Joint Lines
- 6.1.20. Mobilization of the Ulnar Joint Lines
- 6.1.21. General Mobilization of the Carpal Joints
- 6.1.22. General Mobilization of the Metacarpophalangeal Joints

6.2. *Manipulations*

- 6.2.1. General Approach
- 6.2.2. Manipulation of a Cranial Lesion of the Medial Clavicular Head Against the Manubrium
- 6.2.3. Manipulation of a Ventral Lesion of the Medial Clavicular Head Against the Manubrium
- 6.2.4. Manipulation of a Latero/Caudal Lesion of the Medial Clavicular Head Against the Manubrium
- 6.2.5. Manipulation of an Anteriorly Rotated Clavicle
- 6.2.6. Manipulation of a Posteriorly Rotated Clavicle
- 6.2.7. General Separation (Decoaptation) of the AC Joint
- 6.2.8. Manipulation of a Cranial Lesion of the Lateral Clavicular Head Against the Acromion
- 6.2.9. Manipulation of the Long Head Tendon of the Biceps Muscle
- 6.2.10. Manipulation of a Cranial Lesion of the Humerus Head
- 6.2.11. Manipulation of a Cranial Lesion of the Humerus Head
- 6.2.12. Manipulation of a Ventral Lesion of the Humerus Head
- 6.2.13. Manipulation of a Dorsal Lesion of the Humerus Head
- 6.2.14. Manipulation of a Caudal Lesion of the Humerus Head
- 6.2.15. Manipulation of a Dorsally Rotated Radial Head
- 6.2.16. Manipulation of a Dorsally Rotated Radial Head
- 6.2.17. Manipulation of a Dorsally Rotated Radial Head
- 6.2.18. Manipulation of a Caudal Lesion of the Radial Head
- 6.2.19. Manipulation of the Medial Collateral Ligament
- 6.2.20. Manipulation of the Lateral Collateral Ligament
- 6.2.21. Manipulation of a Lunate Lesion in Palmar Translation

6.3. *Muscle Energy Techniques - MET*

- 6.3.1. General Approach
- 6.3.2. Stretching the External Rotators of the Shoulder

- 6.3.3. Stretching the Internal Rotators of the Shoulders
- 6.3.4. Stretching the Flexors of the Shoulders
- 6.3.5. Stretching the Extensors of the Shoulders
- 6.3.6. Stretching the Horizontal Abductors of the Shoulders
- 6.3.7. Stretching the Infraspinatus, Teres Minor and Major Muscles
- 6.3.8. Stretching the Biceps Muscle
- 6.3.9. Stretching the Triceps Muscle
- 6.3.10. Stretching the Forearm Supinators
- 6.3.11. Stretching the Forearm Pronators
- 6.3.12. Stretching the Flexors of the Wrist
- 6.3.13. Stretching the Extensors of the Wrist
- 6.3.14. Stretching the Abductors of the Wrist
- 6.3.15. Stretching the Adductors of the Wrist

6.4. *Strain and Counterstrain Techniques – SCT*

- 6.4.1. General Approach
- 6.4.2. SCT for Dysfunction of the Anterior Acromioclavicular Joint
- 6.4.3. SCT for Dysfunction of the Anterior Acromioclavicular Joint (2nd Technique)
- 6.4.4. SCT for Dysfunction of the Posterior Acromioclavicular Joint
- 6.4.5. SCT for Dysfunction of the Long Head of the Biceps
- 6.4.6. SCT for Dysfunction of the Shoulder Bursa
- 6.4.7. SCT for Dysfunction of the Latissimus Dorsi
- 6.4.8. SCT for Dysfunction of the Subscapularis
- 6.4.9. SCT for Dysfunction of the Teres Major
- 6.4.10. SCT for Dysfunction of the Supraspinatus
- 6.4.11. SCT for Dysfunction of the Infraspinatus
- 6.4.12. SCT for Dysfunction of the Infraspinatus
- 6.4.13. SCT for Frozen Shoulder
- 6.4.14. SCT for a Flexion Lesion of the Elbow
- 6.4.15. SCT for an Extension Lesion of the Elbow
- 6.4.16. SCT for Radial Head Dysfunction
- 6.4.17. SCT for a Flexion Lesion of the Wrist
- 6.4.18. SCT for an Extension Lesion of the Wrist
- 6.4.19. SCT for a Dysfunction of the First Carpometacarpal Joint
- 6.4.20. SCT for a Flexion Lesion of a Finger

7. Osteopathic Strategy

7.1. General

7.2. Pain Causing Structure

7.3. Interactions

7.4. Osteopathy

7.5. Structural Versus Functional Lesions

7.6. Stability

- 7.6.1. Sagittal Plane
- 7.6.2. Frontal Plane
- 7.6.3. Horizontal Plane
- 7.6.4. Craniocaudal Direction

7.7. Segments

7.8. Prevention

7.9. Pain Differentiation

7.9.1. Differentiation

7.9.2. Nociceptive Versus Neuropathic Pain

7.9.3. Referred Pain

7.9.4. Somatogenic and Psychogenic Pain

7.10. Cooperation

8. Bibliography
