Forage/'fôrij/

(verb) Prepare. Make

ready. What is Forage (Designing):

Foraging is identifying plants, flowers and branches in your garden, yard, fields and wooded areas — cutting them and transforming them into awesome designs for your home or others.

Who is OASIS Forage Products:

We help you bring your outdoors in through innovative products, education and community. Combining art and science, we teach you how to create foraged designs made from plant material foraged by you.

Who should Forage:

Everyone who appreciates nature and wants a little slice inside for themselves. Foraging is great way to show off your garden and design skills and get a little “me time” in nature. Foraging is a great activity to do with others — it's the perfect date night or family activity!

New to Foraging?

Let us be your Sherpa...

We're here to guide you every step of the way. Stick with us, and you'll learn everything you need to know about foraging plant material and making AMAZING designs foraged by YOU!

Prep Ready to get started? Let's go on this JOURNEY together. Look for the SEEK, PREP, and CREATE icons on OASIS Forage Products to get your foraging supplies.

Tools

Seek It.

Go out and Forage!
Don't forget your tools, the forage tools have brightly colored handles, so if you drop them, you can find them easily Pro tip: they fit perfectly into the forage bag pockets!

Forage Branch Cutter

32-22831

Designed to be tough. Stainless steel construction built to take on larger, woody branches and stems, the Branch Cutter can handle stems up to 1" thick. Easy-to-locate color pops against grass. Rounded tip won't puncture pockets when stowed away.

- Stainless steel with soft ergonomic grips
- Spring-loaded design cuts easily through stems up to 1" thick
- All-purpose tool cuts easily through thin and thick stems
- Easy to reach slide-locking mechanism for safe and secure storage
- Tucks easily into pockets, foraging bags

Forage Stem Cutter

32-22830

This 'one for all' stem cutter will become your Foraging go-to! Featuring bright, easy to find color with 'just right' sizing that fits most hands. Weatherproof stainless steel blades and a strong spring will last for years of foraging fun! Ideal for cutting flowers and greenery stems on the go, because you never know when you'll find that perfect bloom!

- Sized just right to fit any hand and slip into any pocket
- Spring-loaded to make cuts easy and quick with little effort
- Bright, easy to see color
- Soft grip handle, tough stainless steel blades designed to last
- Serrated blade helps to grips stems as you cut

Forage Stem Shears

32-22832

You can quickly snip through your foraged stems with Stem Shears! The familiar scissor shaped tool makes cutting fresh floral stems quick and easy for the whole family. This great designing tool is sure to have a home on your craft table.

- Familiar shape, everyone knows how to use it right away
- Easy to find color, dropped shears pops against grass
- Serrated blade cuts through foraged stems quick and easy
- Ergonomic Handles care for your comfort while you create
- Heavy duty steel blade, mounted on a sturdy plastic handle

Bags

Foraging Bags

41-31240 - Floral

41-31241 - Botanical

Canvas, 14" W x 12" H x 10" D

Make foraging your fresh flowers easy and hands-free with a messenger style foraging bag. Crescent-shaped and slouchy, this tough canvas hobo style bag has fashion and function in fresh floral prints. Stash your shears and cutters in the outer pockets.

- Worn over-the-shoulder, the cross-body design keeps your hands free to forage
- Flexible compartment size for gathering just a few flowers or several bunches worth
- Tough canvas material softened with a fun floral print
- Outer pockets are sized just right for your shears, keys or your phone
- Great for everyday use too, you never know when you might stumble upon a foraging opportunity!

Seek It.

Forage bags are designed for collecting all of the foraged material along with the necessary tools you may need along your journey to gather the perfect material for your arrangements.

Flower Care

Prep It.

Freshly foraged blooms are hungry, make sure to take care of your stems with our suite of nutrients designed to make your bounty last!

Hurry-Hydrate

80-32028

8 OZ, 12/CS

It's practically magic! Watch tired, stressed, thirsty blooms rehydrate with Hurry-Hydrate, a pre-mixed, ready to use, solution designed to increase uptake of water, promote longer vase life and get your found flowers looking fresher, faster.

- Drooping stems and bent necks? Nip it in the bud!
- Ready to use formula quickly plumps up your foraged flowers
- Simply cut then dip flower stems into Hurry-Hydrate for a few seconds
- Works well for all types of flowers and greenery

Flower Fuel

82-82042

8 OZ, 12/CS

Now that you've harvested your blooms, now how do you make them last? Just like you, flowers need food too! The Forage Food has the exact right nutrient mix to make those found flowers last for days and days.

- Clear, concentrated, formula blends instantly with all water qualities
- Extends the life of your foraged flowers and enhances their vibrant natural colors
- Same, tried-and-true formula that professional florists use
- Mix 1 teaspoon of flower fuel for every 2 cups of water to be added to a vase

Finishing Spritz

83-32029

8 OZ, 12/CS

Now that you've found, prepped and created your bouquet, the last step to lock in the freshness is with a quick spritz of Nutrient Finishing Spray all over. Ready to use spray works just like a facial spray, hydrating from the outside in.

- Ready to use professional grade nutrient spray, makes all the difference
- Quick and easy way to add more vase life to a foraged bouquet
- Super simple to use, just lightly mist your bouquet and go
- Your secret weapon for perky foraged flowers and greenery

Foam

Create It.

Forage Foam bricks fit perfectly in the 4" containers when cut into 1/3" of the size!

Forage Create Kit

75-18520

Being outside has a calming impact on our nervous systems and can help to reduce stress and anxiety. We are surrounded by an abundance of fantastic forage plant material, so why not snip a few stems to bring in to enjoy. The Forage Create Kit has all you need to make a forage design suitable for your table or a museum. Each kit contains:

- 4" Natural colored pot made from agricultural harvest byproducts including bamboo skin.
- Teal colored Bind Wire, to add a pop of color to your design!
- OASIS® Forage Foam, 3 bricks (4x3x3) so you can create 3 different masterpieces.
- Mossing Pins (approximately 25 pins per kit)
- Ippon Scissors an essential foraging tool that has an ergonomic grip and a strain-reducing design.

Forage Foam

10-31220 - 2/Pack

10-31221 - 4/Pack

2 pack (4 pack) – 9" x 4" x 3" Each Brick

Stems stay put with Forage Foam, exactly where you want them. Developed with enhanced degradability, the 2 pack (4 pack) has just enough florist-grade foam for your project, and when you're done it can be easily discarded.

- 9" x 4" x 3" bricks scored in 1/3s and 1/2s, can be cut to fit any container
- Rich brown color blends with stems and is easy to cover up
- Convenient 2 pack (4 pack) sized just right for your foraging adventure
- Just like the pros use, works well with all kinds of flowers and foliage
- Degrades by 75% within 1 year in a biologically active landfill

Forage Foam STRONG

10-31222 - 2/Pack

10-31223 - 4/Pack

2 pack (4 pack) – 9" x 4" x 3" Each Brick

The same, reliable feel-good floral foam you love, in a stronger form! Forage Foam STRONG holds on tight to the thickest, heaviest stems and branches. Developed with enhanced degradability, the 2 pack (4 pack) has just enough florist-grade foam for your project, and when you're done it can be easily discarded.

- 9" x 4" x 3" bricks scored in 1/3s and 1/2s, can be cut to fit any container
- Rich brown color blends with stems and is easy to cover up
- Convenient 2 pack (4 pack) sized just right for your foraging adventure
- Just like the pros use, can support even the heaviest and thickest stems
- Degrades by 75% within 1 year in a biologically active landfill

Tapes & Wires

Forage Stem Wrap 31-31230 - 1/2" Wide

Green, 90' Roll/Per Pack,
1/PK, 8 PK/CS

You can do it! With Stem Wrap you CAN easily make your own corsage or boutonniere! Gather a few snippets of greenery, a few focal blooms and get to wrapping. Stretchy and waterproof, Stem Wrap seals the ends of stems to lock in moisture.

- Clean and sleek finish to corsages or boutonnieres
- Self-sealing tape stretches and sticks to itself
- Just like the pros use, color won't bleed when wet
- Rich green color blends naturally with stems

Forage Anchoring Tape 31-31231 - 1/4" Wide

Black, 54' Roll/Per Pack,
1/PK, 8 PK/CS

Strong foundations make for sturdy creations. Anchoring tape can be used to attach foams, netting and more to glass, metal, ceramic or plastic containers.

- 1/4" wide 54' long roll of waterproof, professional grade tape
- Put the scissors down. Hand-tearable, totally tough tape
- Jet black color blends seamlessly into your creations
- Sized just right to tuck easily into pockets or drawers
- Leaves no residue when removed

Forage Spacing Tape 31-31232 - 1/4" Wide

Clear, 90' Roll/Per Pack,
1/PK, 8 PK/CS

Tired of chasing rogue blooms around your vase? With clear Grid Tape, a quick tic-tac-toe over the vase opening holds stems in place with ease, and without any extra bulk. Make bouquet building fun and effortless!

- Waterproof, sticks to glass, ceramic, plastic and metal containers
- Portable size, tucks easily into a drawer or pocket
- Clear tape vanishes once you start adding stems
- Belongs in every forager's toolkit

Forage Mossing Pins

33-31235

25 Pins/Pack – 2" length, 1/PK, 20 PK/CS
 A staple in any budding foragers tool kit! U-shaped steel Greening Pins work well to secure mosses, branches, greenery and more to your Forage Foam foundation. Cover up your foam? No sweat with Greening Pins.

- Strong steel construction, presses easily into Forage Foam.
- S-shaped head make them easy to pick up and insert
- A true must-have foraging accessory
- Anchors short-stemmed fresh or dried materials
- 25 pins per pack, plenty for several projects

Create It.

Every tape and wire that we carry in this line has a purpose, don't understand the purpose? Visit our website to find out more information about each product and how to work with it.

Forage Bind Wire

40-31234

Natural, Black, White Bindwire – 10' Ea Color, 1/PK, 8 PK/CS, 3 CS/MC

How to secure that beautiful bundle of blooms? With Bind Wire, of course! Colorfast, paper coated wire grips and holds stems where they cross. Strong enough to wrap tightly without breaking or snapping any soft stems.

- 10' of each color: Black, White and Natural
- Black and White colors pop against the stems for a decorative look
- Natural toned bind wire casually blends into the stems
- Bind your bouquets the same way the pros do!

Forage Stem Support Wire

33-31236

24 Gauge Paddle Wire – 200', 1/PK, 8 PK/CS, 3 CS/MC

The secret to creating fresh foraged garlands and the trick to keeping droopy stems upright, all on one roll. Stem Support Wire, a continuous roll of green coated 26 gauge steel, is a must have for any foraging creation tool kit!

- 200' roll of strong but pliable green coated steel support wire
- Flat style roll slips easily into a pocket and doesn't roll away from you
- Wrap along the length of individual stems for additional support and security.
- Create lush forage garlands of any length by continuously wrapping bundles

Containers

Create It.

The 4" Planters and the Geo Pot (5" and 9") work well with Forage Foam, but the Stone planter is a perfect match with spacing tape. Don't know how to use that? Check out our website for more information.

Forage Geo Pot

- 45-22385 - 5" Clay
- 45-22386 - 5" Sand
- 45-22387 - 9" Clay
- 45-22388 - 9" Sand

Neutral Eco Container –

5" - 12/CS, 9" - 6/CS,

5" Sizing dimensions:

5 1/2" Opening//5" Height//4" Base,

9" Sizing dimensions: 5 1/4" Opening//9 1/4" Height//3 1/4" Base

Want to make a classic compote centerpiece? You got this! We'll help. Combine this ideal eco-friendly container with Forage Foam, tape it in with Anchoring Tape and you're ready to create!

- Looks like ceramic, but lightweight and sturdy
- Holds 1/2 brick of Foraging Foam
- Natural look and feel with high end grooved texture
- 6-8" Opening, 6-10" Height, perfect for table centerpieces
- Made from renewables including straw, bamboo skin, corn and coffee husks

Forage 4" Planter

45-22380 - Clay
45-22381 - Stone
45-22382 - Sand

Neutral Eco Container – 4" opening//4 1/8" Height//3 1/8" base, 12/CS

Want to make a classic compote centerpiece? You got this! We'll help. Combine this ideal eco-friendly container with Forage Foam, tape it in with Anchoring Tape and you're ready to create!
