CONTENTS

OUR *STORY*

The Pega story began in 2020 with a vision: to give back to local sporting communities by providing quality apparel at an affordable price.

Our founder, Kosta Mantis, is a football player, supporter and enthusiast and takes great pride in football being the highest participation sport in Australia. This fueled his vision for Pega Sports.

We believe that local sporting clubs have a huge responsibility to keep grass roots thriving so that we can nurture Australia's future sporting stars. Having been heavily involved in local Football clubs our whole lives, we know this is not always an easy task. Local sporting clubs are often made to endure many challenges to keep them thriving. Pega Sports believe clubs should wear apparel that is equally as resilient.

At Pega Sports, we aim to achieve our vision by providing apparel that maintains a high standard of quality at an affordable price. We provide a wide range of products from gameday kits to bags and other accessories, and we work with you closely to customise designs that will reflect your club's brand.
