

QUICK START GUIDE

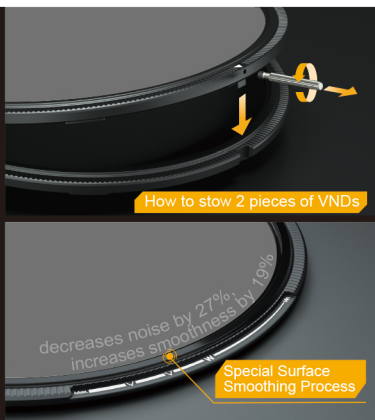

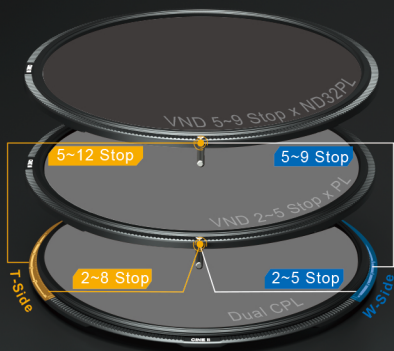

VIDEOGRAPHY & PHOTOGRAPHY.

Installation Sequence for Video Shooting:
CINE I ← CINE II ← CINE III ← CINE IV

Installation Sequence for Photo Shooting:
PHOTO 1 ← PHOTO 2 ← PHOTO 3

Vellum®

Dual CPL	Wide Side					Tele Side (+3 Stop)		
VND 2~5 Stop (ND4~32)	ND4	ND8	ND16	ND32		ND64	ND128	ND256
VND 5~9 Stop (ND32~512)	ND32	ND64	ND128	ND256	ND512	ND1024	ND2048	ND4096
Focal Length	70mm					w/o X-pattern		
	50mm					w/o X-pattern		
	35mm					w/o X-pattern		
	24mm					w/o X-pattern		
	16mm					w/o X-pattern		
	14mm					w/o X-pattern		

Note: This table is based on the test results of Nikon 14-30mm and 24-70mm lenses on 40W/5700K LED panel, which is for reference only. The optical structure of each brand of lens and the incident angle of ambient light have an impact on the diffraction of variable ND filter, which affects the appearance of the X-pattern. The actual situation is mainly based on the using situation.
