DPI and LED setup

DPI Manual Configuration:

1. Short press the DPI button to change the DPI.
2. The defaults DPI are:
 - Blue color (1200 DPI)
 - Pink color (1600DPI)
 - Red color (2400DPI)
 - purple color (3200DPI)
3. If you want to customize your own DPI setting you can use the software to change it.

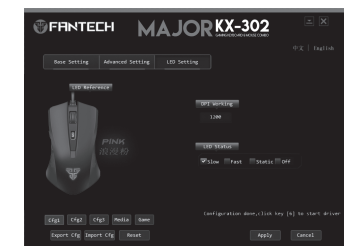

Software

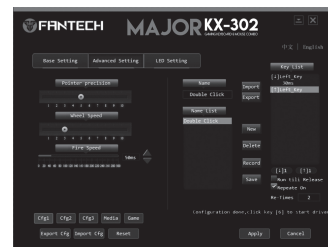

Base setting

- * 6 Macros button assignment.
- * 4 Stages DPI customization from 1200 - 3200dpi.

LED setting

- Click the LED setting. You can set the options.
- * You can change the LED status (breath slow, breath fast, static, and off)

Advanced setting

- * You can customize Pointer precision, Scrolling speed, Double-click speed.
- * To create a new macro in settings. Input the macro key name and then Input keylist. Example:
 - Add macro keyname "Double Click"
 - Press Start Record Button and left click 2 times then press Stop Recording
 - You can edit delay time/cycle before saving.
 - Press save/apply button to save your macro "Double Click"
- * To use your macro "Double Click"
 1. Go to Main menu
 2. Select button you want to apply the macro "Double Click"
 3. Then select Macro and select Double Click
 4. Save & Apply
 Your button will be used as "Double Click"
- * To check your Macros
 1. Go to nolepad
 2. Click the assigned macro button
 3. It should type Double Click
 Note: "Double Click" is just an example, you can use your own keys for macros.
