## How to use

MAX CORE MK852 designed with media playback button and roller. You can press the roller for 3 sec to switch between LED mode and media playback mode.

When the roller light is on, it means entering the LED light mode. You can adjust the LED brightness using the roller, turn right to make it brighter, turn left to make it darker, slightly press the roller to change the Spectrum mode. For the M1-M3 button, you can press to enter the LED custom mode, to record it, press FN+END and after finish input the keys, press the button M1/M2/M3 again to save it.

When you press the roller for 3 sec, the light goes off, it means entering the media playback mode. You can adjust the sound volume using the roller, turn right to increase the volume, turn left to decrease the volume, slightly press the roller to mute the sound. Press the M1 button to hear the previous song, M2 for pause/play and M3 to hear the next song.

## How to connect

Its plug and play. Connect the keyboard to computer by inserting USB jack to your computer USB port.
