

Phytobiophysics® All Creatures Great & Small Formulas are the most advanced vibrational formulations from The Institute of Phytobiophysics®. Created as a result of years of intensive research into the relationship between the profound power of plant essences and their harmonising effect on the Spiritual and Emotional planes.

# PHYTOBIOPHYSICS® ALL CREATURES GREAT & SMALL FORMULAS ARE:

- NATURAL.
- CONTAIN NO ADDITIVES OR CHEMICALS.
- NON-ADDICTIVE,
- SAFE FOR BABY ANIMALS,
- SAFE FOR ALL CREATURES.
- SAFE FOR THE VULNERABLE,
- DO NOT INTERFERE WITH MEDICAL AND VETINARY PRESCRIPTION

## PHYTOBIOPHYSICS® ALL CREATURES GREAT & SMALL FORMULAS HAVE THE CAPACITY TO:

- Combine with all the Phytobiophysics Formulas in order to stabilise and harmonise on the spiritual & emotional plane.
- Heal spiritual and emotional wounds of the past, therefore aiding recovery of the physical symptoms which may manifest.
- Release energy blocks in the meridians enabling an instant increase in energy flow thus enabling response on a deep level.
- Antidote the vibration of poisons and toxicity even after many years.
- Aid the assimilation of vital nutrients needed to support recovery.

Historic research into the vibration of the body has verified that electrical impulses travel through the central and autonomic nervous system. Electrical circuits flow through specific body organs and systems, aiding their function. It has been shown that a free flow of energy is essential to ensure optimum health.

As a result of many years of research each PHYTOBIOPHYSICS® Formula has been made by combining the essence of rare plants and trees, which have been gathered worldwide. This unique philosophy referred to as PHYTOBIOPHYSICS® is now recognised as a leading science in the world of natural healthcare.

PHYTOBIOPHYSICS® formulas do not contain drugs, chemicals, additives, salts or preservatives. Because they have no organic or chemical content they have no side effects. They are safe to be combined or taken with any other preparation and do not interfere with medical or vetinary prescription.

#### DIRECTIONS

The formulas may be given as often as required or as advised by a practitioner. Tip up the dispenser and twist the lid to dispense one pill. Do not touch the pill.

If it is impossible to administer into the creatures mouth they can be placed in water or food. Store in a cool dry place away from electrical, electronic and digital appliances.

Phytobiophysics is a registered trade mark of Diana Mossop in UK and in many other countries

These powerful animal support formulas are made from a combination of newly researched formulas that support on all levels of consciousness both emotional and physical
