

Trees...the ultimate power of the planet

ADVANCED RESEARCH BY THE INSTITUTE OF PHYTOBIOPHYSICS® HAS LED TO THE CREATION OF THE MOST POWERFUL RANGE OF VIBRATIONAL TREE FORMULAS.

Phytobiophysics® Superfit Formulas are made by combining the essences of some of the most important trees of the world, to produce a range of formulas of extraordinary power.

For more than 400million years, trees have been the silent stately guardians of the land. They provide shade from the sun, shelter from the wind and rain. The tropical forests and jungles provide life giving water in the form of rain, and vital Oxygen for the breathing of the planet. They provide nutrients in the soil, wood, fruits, food and medicines. Their strength and beauty enriches the planet and soothes the spirit. Since time began trees have been honoured by mankind.

The Phytobiophysics® Superfit Formulas have been created from essences from the seeds, nuts and cones of some of the most sacred trees on the planet: The oldest recorded Oak tree in England, Californian Sequoia, the tallest tree on the planet, and the oldest tree in the world from Mexico, Eucalyptus, native of Australia and the Indian Deodar, tree of God.

Phytobiophysics® Superfit Formulas carry the genetic wisdom of the trees and are the ultimate power of the planet.

Phytobiophysics® Superfit Tree Formulas have the capacity to regulate energy fields, and release blockages of energy flow which encourages the body's own innate ability to recover on a very profound level. They are not intended to diagnose, treat or cure any medical condition.

Phytobiophysics® Superfit Formulas are the most advanced vibrational formulations from The Institute of Phytobiophysics. STAMP

The Institute of PHYTOBIOPHYSICS® was founded in 1992 after 15 years of research and development into the use of natural energy of plants in order to create vibrational formulas for humans and animals.

Historic research into the vibration of the body has verified that electrical impulses travel through the central and autonomic nervous system. Electrical circuits flow through specific body organs and systems, aiding their function. It has been shown that a free flow of energy is essential to ensure optimum health.

As a result of many years of research each PHYTOBIOPHYSICS® Formula has been made by combining the essence of rare plants and trees, which have been gathered worldwide. This unique philosophy referred to as PHYTOBIOPHYSICS® is now recognised as a leading science in the world of natural healthcare.

PHYTOBIOPHYSICS® formulas do not contain drugs, chemicals, additives, salts or preservatives. Because they have no organic or chemical content they have no side effects. They are safe to be combined or taken with any other preparation and do not interfere with medical prescription.

DIRECTIONS

The formulas may be used when appropriate, although the specific usage instructions for each formula should be followed. Using the lid as a dispenser tip one pill into the mouth without handling. Replace the lid immediately after use and store in a cool dry place away from electrical appliances.

A vital factor in immunity is the assimilation of anti oxidant vitamins such as Vit A,C and E and minerals such as selenium, germanium and zinc.
