## ABOUT

Stripee™ is a 2-in-1 finger guard and fly-line cleaner. Made with durable neoprene and felt. Stripee™ is built to take the bite out of your fly-line by protecting your fingers from abrasions while cleaning your line as you fish. Felt pads can be pre-moistened with floatant or line conditioner as needed.

## FEATURES

- COMFORT FIT
- PROTECTS FINGERS FROM ABRASION
- CLEANS FLYLINE

**WE BUILD  
ULTRALIGHT OUTDOOR GEAR  
BECAUSE EVERY OUNCE COUNTS**

**OUR STORY**

It all started with a muddy fly line. After a day fly fishing on the Little Blackfoot River in 2001, Darren Jones decided he needed a product that would not only clean his fly line, but protect his fingers. A few weeks and several prototypes later, he created Stripee, the first product for what would eventually launch Alpine.

The company's next big break came in 2002 when Darren spilled mayo on his glasses. After an unsuccessful search for his lens cloth, he knew he needed to invent a product that wouldn't get lost. With a little help from his wife Shellie, Spudz was born. Spudz helped put Alpine on the map, and the company has been creating innovative products for the outdoors ever since. Fast forward to today, and Darren is still looking for problems to solve. With 25 patents and over 30 unique products, Alpine continues to create products that solve everyday problems. We proudly manufacture our products in the USA.
