TECHNICAL PARAMETER		
Sr. No	Project	Parameter
1	Quiescent current	50uA
2	Dynamic current	180mA
3	Number of administrators	10 groups
4	Number of fingerprints	50 groups
5	Fingerprint + password + card capacity	250 groups
6	Rejection rate	0.1%
7	False admission rate	0.0001%
8	Induction time	0.5seconds
9	Power supply type	6V
10	Emergency power supply	Type c 5V 2A
11	working temperature	-25 ~60
12	Working relative humidity	20%~90%RH
13	keyboard	Touch the standard 12 bit keyboard
14	Password length	8 bits
15	False password	16 bits
16	Low voltage alarm voltage	4.8±0.2V

10. Smartlife Application Networking

- Download and install the application software "Smartlife APP" on the mobile phone (as shown in the figure).
- Open the "Smartlife APP", enter the "registration" interface, and click "mobile number / y email" to register the relevant account.
- After completing the registration, you will automatically enter the main interface, click "+" in Figure 1 at the top of the screen, then click "add device" in Figure 2, click "camera / lock" in Figure 3, find "Wi Fi" and click.
