
WANTING TO STOCK OUR PRODUCTS?

INTRODUCTION

Here at Restore, we are a 100% Qatari-owned business with a passion to produce the best product possible, so you and your customers can enjoy quality cold-pressed juice. For cafes wishing to sell fresh juice who are stressed or dissatisfied with the costs, mess, and waste associated with making their own juices, our juice is the premium, high-end, fresh cold pressed juice that your customers deserve.

We believe in providing healthy and delicious options for our customers. We are excited to offer our range of beautifully crafted cold-pressed juices and daily shots to cafes and restaurants, and we would love to work with you to bring our range of juices to your customers.

WHY COLD-PRESSED JUICE?

Cold Pressed Juices are made by shredding or compressing fruits or vegetables into a pulp. Next, a hydraulic press applies extreme pressure to the fruit and vegetable pulp to extract every last drop of juicy goodness.

The low temperatures and gentle processing of the fruit and vegetables, ensures minimal oxidisations and the preservation of nutrients. This means that you get a higher concentration of nutrients, vitamins, minerals and enzymes (up to 80% more) compared to regular juice.

100% Cold Pressed Juice, No water or sugar added

Our range includes Cold Pressed Juices in 250ml, 1 Litre, and 2 Litre bottles.

WHY PARTNER WITH US

High Quality Products

We understand the importance of offering healthy and fresh options for your customers, and we take pride in our products. Our juices are made with the highest quality fruits and vegetables, pressed fresh daily, and free from any added sugars or preservatives.

Reliable Supply

At Restore, we work directly with our fruit and vegetable suppliers to ensure a reliable year-round supply of fresh produce. This allows us to produce our high-quality juices consistently and offer a range of premium juices.

Grab-and-Go Options

Our range of 250ml cold-pressed juices and 50ml Daily Shots are designed to grab-and-go, perfect for customers who are on the go. We also offer a 1-liter and 2-liter range that is great for table service.

- Our brand is uniquely focused on emotional well-being nutrition.
- Cold pressed from whole fruits and vegetables sourced from local suppliers.
- Pick your preferred delivery intervals based on sales.
- More affordable, less time-consuming alternative to making the juices on site

- *TURMERIC SHOT* – Turmeric, carrot, lemon, black pepper.

Custom Blends

We know that one size, or flavor, does not always fit all. If you can't find something that fits in our current range, get in touch and we will see how we can help by creating custom flavors for only you.

Stock restores juices for your health-conscious customers who prefer not to compromise on quality. Made with local ingredients using processes that retain maximum enzymes and nutrients, every juice has its own wonderful benefits and flavor.

Ideal for all types of cafes, healthy food stores, wellness retreats, day spas, restaurants, and gyms. Be ready with top-quality, cold-pressed juices for your customers to purchase with gratitude.
