

Caddy Splash

Safety Data Sheet

1. Identification

Product Identifier	The Caddy Splash Shoe Cleaner
Common Name	Shoe Cleaner
Recommended restrictions	For Industrial and Institutional Use Only
	Caddy Splash
	16055 Ventura Blvd Ste. #725
Manufacturer	Encino, CA 91436

2. Hazardous identification

GHS Classification	Skin Irritation, Eye Damage/Eye Irritation
Routes of entry	Dermal contact, eye contact, Inhalation. Ingestion
Environmental hazards	No known significant effects or critical hazards
OSHA defined hazards	Not Classified
Other hazards which do not result in classification	Not applicable
Label elements	None applicable
Hazardous Determination System (HMIS)	

Hazard Statement	Caution, Causes skin irritation
Storage	Not applicable
Disposal	Not applicable
Precautionary Statements	
Prevention	Wash hands and any exposed skin thoroughly after handling. Wear protective gloves. Wear eye protection.
Response	
Eyes	If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.
Skin	If on skin or hair, wash with plenty of soap and water. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.
Specific Treatment	See Safety Data Sheet Section 4 "FIRST AID MEASURES" for additional information.

Safety Data Sheet

Other Information

May be harmful if swallowed. Harmful if absorbed through skin. Inhalation of vapors or mist may cause respiratory irritation. Keep out of reach of children.

3. Composition/Information on Ingredients

Chemical Name	CAS Number	Weight %
Water	7732-18-5	30-60
Nonionic Surfactant Mixture	Varies	1-5
Tetrasodium EDTA	13235-35-4	1-5

Trade secret claims: Specific chemical identity and/or exact percentage of composition has been withheld as a trade secret.

Occupational exposure limits, if applicable, are listed in section 8.

4. First Aid Measures

Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison control center or physician if you feel unwell.
Ingestion	Rinse mouth. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if you feel unwell.
Skin contact	Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical attention.
Eye contact	Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.
Note to Physicians	Treat symptomatically.

5. Fire Fighting Measures

Suitable Extinguishing Media	Product will only burn if sufficiently heated to drive off water. Chemical foam, dry chemical or carbon dioxide
Specific Hazards Arising from the Chemical	Use water spray to cool fire exposed containers
Hazardous Combustion Products	May include Carbon Monoxide, Carbon Dioxide, and other toxic gases or vapors.
Protective Equipment and Precautions for Firefighters	Wear MSHA/NIOSH approved self-contained breathing apparatus (SCBA) and full protective gear. Cool fire-exposed containers with water spray.

6. Accidental Release Measures

Personal Precautions	Avoid contact with skin, eyes, or clothing. Use personal protective equipment as recommended.
Environmental Precautions	Do not rinse spill onto the ground, into storm sewers, or bodies of water.

Safety Data Sheet

Methods for Clean-Up Prevent further leakage or spillage if safe to do so. Contain and collect spillage with non-combustible absorbent material (i.e.: sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulations (see Section 13).

7. Handling and Storage

Safe Handling Handle in accordance with good industrial hygiene and safety practice. Wash thor-

Safe Storage Keep containers tightly closed in a dry, cool, and well-ventilated place. Keep out of the

8. Exposure controls/personal protection

Control Parameters

Ingredient

Exposure limits

Appropriate engineering controls

Provide good general ventilation. If work practices generate dust, fumes, gas, vapors, or mists which expose workers to chemicals above the occupational exposure limits, local exhaust ventilation or other engineering controls should be considered.

Personal Protection

Eye: splash goggles

Protective Gloves: Wear rubber or other chemical-resistant gloves

Respiratory: - None needed under normal conditions

Environmental exposure controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures

Wash hands and any exposed skin thoroughly after handling. See 29 CFR 1910.132-138 for further guidance.

Respiratory protection

Not required with expected use. If occupational exposure limits are exceeded or respiratory irritation occurs, use of a NIOSH approved respirator suitable for the use-conditions and chemicals in Section 3 should be considered.

Hand protection

Wear rubber or other chemical-resistant gloves.

Eye protection

Wear splash goggles.

Skin protection

Wear rubber or other chemical-resistant gloves.

Safety Data Sheet

9. Physical and chemical properties

General Information

Physical state	Liquid
Color	Clear
Odor	Mild odor
Flash point (ASTM D-92)	>212°F
Auto-ignition temperature	None established
Vapor pressure	None determined
Vapor density	None determined
Volatility	Negligible
Evaporation rate	> 1
pH	9.0
Boiling Point / range	>212°F
Specific Gravity (H ₂ O=1)	1.01
Water Solubility	Complete

10. Stability and reactivity

Chemical stability	Stable under normal conditions.
Possible of hazards reactions	This material is considered to be non-reactive under normal conditions of use.
Conditions to avoid	No specific data
Incompatible materials	No specific data
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological Information

Information on the likely routes of exposure

Inhalation	Nasal discomfort and coughing	Skin contact	Pain, redness, and cracking of the skin
Ingestion	Pain, nausea vomiting, and diarrhea	Eye contact	Pain, redness, swelling of the conjunctiva and blurred vision.

Hazardous Component (s)

LD50s and LC50s

Immediate and Delayed

Health Effects

Occupational exposure limits, if applicable, are listed in section 8.

Safety Data Sheet

12. Ecological Information

Environmental effects No known significant effects or critical hazards
Other adverse effects No information available

13. Disposal considerations

Disposal methods Dispose of in accordance with federal, state, and local regulations.

14. Transportation Information

US Department of
Transportation Classification

15. Regulatory Information

Toxic Substances Control Act (TSCA) Status: (Toxic Substance Control Act Section 8(b) Inventory) All chemical substances in this product are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

SARA 313 This product contains the following listed substances

SARA 311/312 Hazard Categories

Acute Health Hazard	No
Chronic Health Hazard	No
Fire Hazard	No
Sudden release of pressure Hazard	No
Reactive Hazard	No

State Regulation

This material is not regulated by the California Safe Drinking Water and Toxic Enforcement Act. This product (petroleum) as well as the zinc and zinc compounds contained within are listed in the New Jersey Right-to-Know Chemical List and the Pennsylvania Right-to-Know Chemical list.

16. Other Information

All reasonable practicable steps have been taken to ensure this data and the health, safety and environmental information contained in it is accurate. No warranty or representation, express or implied is made as to the accuracy or completeness of the data or information. The data and advice is given apply when the product is sold for the stated application or applications. You should not use the product other than for the stated application or applications without seeking advice.

It is the user's obligation to evaluate and use this product safely and to comply with all applicable laws and regulations. The manufacturer shall not be responsible for any damage or injury resulting from use, or failure to adhere to recommendations, or from any hazards inherent in the nature of the material. Purchasers of the product for supply to a third party for use, have a duty to take all necessary steps to ensure that any person handling or using the product is provided with the information in this sheet. Employers have a duty to tell employees and others who may be affected of any hazards described in this sheet and or any precautions that should be taken.
