B0506 Datasheet

1. Purpose

In order to fully describe the technical specifications referred to in technical cooperation, it usually needs to be expressed by a complete set of documents. As part of this, this datasheet specifies the specific technical specifications that a camera module should meet and is binding on this model.

2. Efficacity

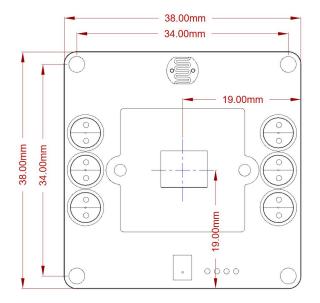

This datasheet shall prevail if this it's inconsistent with the specifications in the general technical specifications of such goods.

Image Sensor				
Resolution	2MP			
Chroma	Color/Mono			
Shutter Type	Rolling shutter			
Optical Format	1/2.7"			
Output Format	MJPG/YUY2			
Pixel Size	3 μm x 3 μm			
Sensor Active Area	1920(H)×1080(V)			
Frame rate	MJPG: 30fps@320*240, 352*288, 640*480, 800*600, 1024*768, 1280*720, 1280*960, 1280*1024, 1920*1080 YUY2: 30fps@320*240,352*288; 15fps@640*480; 20fps@800*600; 10fps@1024*768, 1280*720; 5fps@1280*960,1280*1024,1920*1080			
Lens				
Focus Type	Manual			
FOV	$105^{\circ}(D) \times 92^{\circ}(H) \times 76^{\circ}(V)$			
Lens Mount	M12 (S-mount)			
F.NO	F1.6±10%			
EFL	4.3±5%			
IR Sensitivity	Integral IR-Cut Filter (Only sensitive to visible light during the day, sensitive to IR at night with 850 IR LEDs on)			
Default Focus Range	2m-∞			
USB Interface				
Interface	USB 2.0 device			
Connector	B4B-ZR			
UVC Complaint	No additional drivers required			

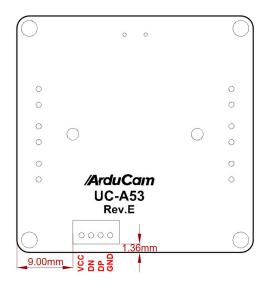

3. Technical Parameters

Electrical and Mechanical				
Operating Voltage	DC 5V +/- 5%			
Working Current	Max 300mA			
Power Requirements	Max: 2.0W			
Operating Temp.	32°F-158°F (0°C to 70°C)			
Camera Board Size	38mm x 38mm			
Functionality and Compatibility				
Audio	Single Microphone			
Supported OS	Windows, Linux, Android, and MAC			
Sample Application	AMCap-Windows			
UVC Controls	Brightness, Hue, Contrast, Saturation, Sharpness, Gamma, White Balance (Manual/Auto), Gain, Backlight Comp, Exposure (Manual/Auto)			

4. Lens & Board Dimension Diagrams

7. Function Inspection Criteria

7.1 Function definition:

Camera module electrical performance and image quality.

7.2 Inspection methods

- Staff: Visual inspection personnel need to be trained and have normal color recognition ability. Their vision should be above 1.0 (or more than 1.0 after correction is acceptable), and their color discrimination ability can pass standard tests.
- Tool: Connect the computer, inspect images with AMCap software.
- Distance and Time

Observation distance: 30~55cm

Observation time for each surface: 3~5seconds

• Inspection condition: Visual inspection should be performed under unobtrusive fluorescent lamps, and its minimum illumination should be above 100 feet of candlelight, or 60W fluorescent lamps, inspected at 1.5m distance.

7.3 Accept criteria

- The image has no mess, color screen and discoloration.
- There is no white spot, black spot, dirt or dark angle in the image.
- The image is same clear on all corners

8. Visual Inspection Criteria

8.1 The definition of the appearance

Camera module appearance.

8.2 Test methods

- Staff: Visual inspection personnel need to be trained and have normal color recognition ability. Their vision should be above 1.0 (or more than 1.0 after correction is acceptable), and their color discrimination ability can pass standard tests.
- Distance and Time

Observation distance: 50~75cm,

Observation time for each surface: 3~5seconds

• Inspection condition: Visual inspection should be performed under unobtrusive fluorescent lamps, and its minimum illumination should be above 100 feet of candlelight, or 60W fluorescent lamps,

B0506 Datasheet

inspected at 1.5m distance.

• Observation angle: Observation angle between $40^{\circ} \sim 50^{\circ}$.

8.3 Accept criteria

- Cleanliness: Parts must be free of stains, dust, grease, and other stains. Smudges due to transportation materials are acceptable if they can be blown away or wiped off.
- Assembly surface: The parts to be assembled should avoid scratches, gouges, dents, bends, cracks, indentations, abrasions or other defects caused by improper assembly.

Items	Condition	Specification	
High Tomponature Toot	Temp.: 80°C	No abnormal	
High Temperature Test	Time: 96H	No abnormal	
Low Town quature Test	Temp: -20°C	No abnormal	
Low Temperature Test	Time: 96H	INO abnormal	
II	Temp: 60°C		
Humidity Test	Humidity: 80-85%	No abnormal	
	Time: 24H		
Cable Tensile Strength	Loading weight: 4KG	No abnormal	
1000	Time: 60s		
	Hight: 60CM		
Drop Test	Number of times: 10	Electric normal	
	On the wood		
	Vibration machine vibration frequency to 50Hz		
Vibration Test	Vibration amplitude:	Electric normal	
	1.5MM;		
USB Connector	Vibration time: 30 Minutes	Electric normal	
	Number of times: 250		

9. Reliability Test

10. Packing Request

- Products should be strictly based on product characteristics to develop corresponding packaging standards and follow the implementation to ensure that the product is used within the specified use and storage period, to achieve anti-static, moisture-proof, shock-proof, mildew-proof, anti-barbaric handling and other signs and related warranty requirements. Product packaging should be marked: Supply-side name / logo, Product Model specifications, containing the number, production date / batch number and order number.
- The product's outer packaging should be marked with: supplier name / sign, product model specification, built-in quantity, production date / batch number and order number.
- The packing and packing scheme are based on the customer's requirements, and the two parties will negotiate the specific details. The sealed samples shall prevail.

11. Others

- Changes to this acknowledgement need to be confirmed by both parties, and any modification by either party is invalid.
- This acknowledgment must be signed and returned within seven working days of receipt by the client, late regarded as the default.
