

Subject: MAP Policy – Motive Products Brand

Dear Customer,

AGS has instituted a Minimum Advertised Price policy (MAP) for the benefit of our valued resellers as it relates to the Motive Products brand. Although we actively encourage and support the advertising and promotion of our products by our dealers, we find it necessary to implement a MAP policy so that the Motive Products brand is not devalued in the marketplace and so each reseller partner can compete equally based on the value they provide to the customer.

- 1.** An authorized Motive Products brand reseller shall be deemed in violation of the MAP policy if they advertise, or otherwise place in the public domain, prices for any product in the Motive Products line that is more than 10% below AGS published retail price. MAP applies only to advertised pricing.
- 2.** MAP applies to all advertisements of the Motive Products brand individual product SKUs, and includes but is not limited to magazines, websites and other electronic media, broadcast emails, catalogs, flyers, coupons, newspapers, television, and radio. The policy does not apply to any in-store advertising or in-store pricing.
- 3.** Prices listed on internet sites are considered advertised pricing and are subject to the MAP policy.
- 4.** AGS may, from time to time, offer special promotions on certain Motive products and reserves the right to suspend or modify the MAP policy and will notify all resellers of any such changes.
- 5.** AGS reserves the right to amend this policy and will provide 14 days advance notice of any changes to all authorized resellers.
- 6.** Failure to comply with this policy will result in any discounts being discontinued and 30 days notice of termination of reseller status.
