Film Screening, Book Launch & Signing

## STEVE SABELLA: PHOTOGRAPHY 1997 - 2014

Thu 16 Oct 2014

Join us in the Eranda Studio and Bookshop for two events with Berlin based Palestinian Artist **Steve Sabella**:

16.30 Eranda Studio: Special screening of *In the Darkroom with Steve Sabella*, directed and produced by **Nadia Johanne Kabalan**.

**Steve Sabella** is considered one of the most thriving artists from Palestine today. The 15-minute-documentary gives an insider view of the artist's practice, in which photographic technique and material experiments become a necessary tool of introspection and visual investigation of the past. While the series *Metamorphosis* (2012) reveals **Sabella's** transformation after an inner and outer conflict based on his experience of occupation, *38 days of re-collection* (2013-2014) documents the excavation of a forgotten and re-imagined history of Jerusalem. In dark, fluid and deliberate images, personal narratives come to light in the darkroom – the womb that brings images and imaginations to life.

The screening is followed by a short talk by Art Historian Professor **Hubertus von Amelunxen**, who also will be in conversation with **Steve Sabella**.

17.30 Bookshop: Launch of **Steve Sabella's** career surveying monograph *Photography 1997-2014*, written and edited by **Hubertus von Amelunxen** and published by **Hatje Cantz**. Join us for a drink and meet the artist who will be signing copies of his book. If you cannot make it to the event signed copies of *Photography 1997-2014* can be [pre-ordered online](#) or by [contacting the Bookshop](#).

Free events, just turn up.
