WorkEZ™

Introducing WorkEZ™

Each joint is measured in 15° increments. Joints lock in place every 15°.

To operate a joint, depress the button and rotate the leg to the desired angle.

⇨ Once the button is depressed, joints rotate in a complete circle or 360°

⇨ The joint is locked when the button is extended. Only use WorkEZ™ when all joints are locked.

Depress the button to adjust the leg.

An extended button means the joint is locked.

When adjusting, be wary of your fingers.

Guideline

Max load is 13 lbs.

Joints must be locked (extended) before use.

Before use, ensure that:

⇨ All joints are locked (extended)

⇨ The platform is level

⇨ Both legs are adjusted identically and evenly

⇨ WorkEZ™ is stable

⇨ The platform weight is centered over the bottom leg

**Tip:** If WorkEZ™ tends to tip forward or backward, rotate the bottom leg 180°
