The History of Windsor Windows & Doors

Windsor Windows & Doors began as a small operation in Des Moines, Iowa, in 1946. By crafting some of the finest windows and doors available – and asking fair prices – we’ve built our reputation of quality and value among architects, builders, contractors and homeowners. Windsor remained a regional wood window company until being purchased by Woodgrain Millwork, Inc., Fruitland, Idaho, in 1987.

Woodgrain began as Dame Lumber & Moulding in 1954 by founder Bud Dame, who pioneered the manufacturing of wood mouldings. In 1984, Dame Lumber & Mouldings merged with a subsidiary to form Woodgrain Mouldings. In 1988, the name was officially changed to Woodgrain Millwork. Bud’s two sons, Reed and Kelly Dame, are currently the owners of Woodgrain Millwork.

Windsor is proud to be owned by such a large and successful company. Woodgrain has grown into the largest manufacturer of mouldings and interior doors in the United States. Four separate divisions are now part of the Woodgrain family; Millwork, Distribution, Doors and Windows. Woodgrain Millwork currently employs over 3,000 people in 20 different locations, including two in Chile.

We’ve come a long way since we built our first window in 1946. Since joining Woodgrain, Windsor has streamlined its manufacturing processes, invested in state-of-the-art equipment, engineered innovative new designs and expanded the product offering. Windsor’s corporate headquarters is located in West Des Moines, Iowa. The manufacturing plant in that location occupies 340,000 square feet. We also operate a 200,000-square-foot production facility in Monroe, North Carolina as well as a 167,000-square-foot facility in Norwalk, Iowa. We manufacture four distinct product lines: Pinnacle (wood

clad windows and patio doors), Legend (cellular PVC windows), Next Dimension (vinyl windows and patio doors) and Revive™ (wood clad, hybrid and vinyl pocket replacement windows). Windsor enjoys a national presence in the window and patio door marketplace. We ship quality products throughout the United States and to Canada, Mexico and China.

Woodgrain Millwork, Inc., and Windsor Windows & Doors have succeeded as a result of traditional American values. The diligence and hard work of the owners, as well as every employee they have hired throughout the years, has allowed the company to grow into a viable competitor in the

residential and light commercial building market. We strive every day to meet our customers’ needs and exceed their expectations. Our goal is to provide the best value in the window and door industry.

The Windsor Advantage

At Windsor Windows & Doors, we're committed to providing the finest products, engineered to meet the needs of all your projects. We'd like you to experience the Windsor Advantage...a complete set of impactful solutions delivering outstanding service, selection, quality and value.

Whether you're looking for the beauty of wood in our Pinnacle products, the longevity of our Legend cellular PVC, the efficiency of our Next Dimension vinyl or the easy installation of our Revive pocket replacement windows, rest assured Windsor takes pride in producing meticulously crafted windows and doors for each specific order.

We use the highest quality materials, resulting in products that are durable, reliable and weather resistant. Our goal is to exceed your expectations by providing short order lead times, reliable delivery dates and the flexibility to respond to your custom requests.

PINNACLE CASEMENT, AWNING, DIRECT SET AND PICTURE WINDOWS, WITH SWINGING AND SLIDING PATIO DOORS. Cleveland, Ohio.

The Windsor Advantage means you won't pay a premium for superior quality and exceptional service. You'll find with your very first order, Windsor is not just a window and door company. We're a collection of dedicated professionals working every day to solve problems and build lasting relationships.

Make Every Project a Success

Windsor Windows & Doors has distinct product lines for every application. New construction. Room additions. Window replacement. Windsor has the solutions to help meet any home building or home improvement need. Discover all of the products we have to offer.

Pinnacle

Our top-of-the-line Pinnacle wood clad windows and doors offer a large selection of styles and shapes. The exterior comes in either a primed wood, cellular PVC or low-maintenance extruded aluminum cladding in 23 standard colors, 20 feature colors or 7 matte color finishes. Custom color matching is also available.

The wood interiors of our Pinnacle products are made from the finest Clear Select Pine, specially treated for long life. Select our Douglas Fir, which ranges in natural colors from bright white to a rich rose, or an attractive Natural Alder with wood tones spanning from a golden honey to a handsome reddish brown. These exquisite woods will complement any home's décor for years to come.

Pinnacle patio doors are offered in a variety of sizes and styles and are known for their strength, quality and aesthetics. They are easy to operate, and our heavy-duty weatherstripping will ensure your patio doors are ready for the changing seasons.

Whether you choose a swinging or sliding patio door for a traditional look with modern performance, a stunning bi-fold door to let the beauty of nature into your home or a multi-slide door to highlight your outdoor area and expand your interior living space, a Pinnacle patio door is a great way to enhance your view.

Pinnacle Select

Pinnacle Select is an elite product line constructed from enhanced components that provide unsurpassed performance and expansive full-glass views to the surrounding outdoor beauty in any season. DP ratings ranging from 50 up to 70 are some of the most impressive in the industry. Pinnacle Select windows are currently offered in casements (vented and fixed), picture, transom and awning. This line features a unique push-out style casement and awning, as well as a retractable screen option.

Pinnacle Select also offers three styles of grand scale patio doors that are perfect for today's majestic architectural homes. Available in in-swing, out-swing, multi-slide and bi-folding styles, Select patio doors are offered in two construction options. Choose from thermally broken, heavy-duty all aluminum exterior and interior construction or thermally broken, heavy-duty all aluminum exterior and wood interiors in either beautiful Clear Select Pine or Douglas Fir. These high-performance, large-panel doors are specifically designed to blend the splendor of the outdoors with any interior space.

Legend

Our Legend products use state-of-the-art cellular PVC in a solid construction throughout, creating the next innovation in windows. Legend windows combine the traditional look and feel of painted wood with the low maintenance and durability of cellular PVC construction. This product offers the only 25-year warranty in the industry. Get the best of both worlds with Windsor's Legend product line.

Legend HBR

Windsor has developed a unique hybrid product that we call Legend HBR, which combines the strength and durability of our Legend cellular PVC frame with a wood clad sash. The merging of these two product types offers a low-maintenance exterior with a beautiful wooden interior. Choosing both of these materials in white provides a traditional appearance, while producing the sash and frame in contrasting colors creates a two-toned effect that is popular in certain regions of the country. Our Legend HBR products are well suited for both new construction and historical renovation.

Next Dimension Signature

Next Dimension Signature windows and doors are robust, reliable products that offer the resilience of extruded multi-chambered vinyl. Enhanced components and sturdy construction add strength and stability, so homeowners can enjoy exceptional performance and energy efficiency for years to come.

Next Dimension Classic

Next Dimension Classic is available in single and double hung units, sliders, as well as sliding patio doors. What makes Next Dimension Classic unique is its sloped sill, tilt sash, brickmould profile frame and decorative features, such as a profiled inner grille and simulated divided lite.

Next Dimension Pro

Next Dimension Pro vinyl windows and patio doors are designed for light commercial, multi-family and residential applications, all at a highly competitive price. Vinyl extrusions ensure superior weathering, durability and color retention. Construction features are built in to reduce maintenance, add strength and security, and maximize weather resistance.

Revive Pocket Replacement Windows

There's a lot to love about a home – its unique character, timeless details and genuine craftsmanship. Drafty, unsightly windows can easily steal away from the beauty of these features. That's where Revive pocket replacement windows come into the picture.

Each window can be transformed with stunning Windsor quality in about an hour, with fewer worries about disturbing any treasured wood trim or other interior and exterior features. And because they're meticulously built to order with customizable features in three high-quality materials (wood clad, hybrid and vinyl), Windsor Revive pocket replacement windows are a fast, uncomplicated upgrade.

Revive Sash Replacement Kit

Replace old, drafty, inefficient double hung sashes with energy efficient, dual pane sashes. Windsor's Revive Sash Replacement Kit makes updating easy, allowing homeowners to leave existing interior trim and plaster in place. Choose from three different replacement sashes: versatile primed wood, durable aluminum clad or low-maintenance cellular PVC. And, because Revive sashes feature EZ Tilt, cleaning is fast and hassle-free.

Environmentally Responsible

Windsor Windows & Doors and Woodgrain Millwork, Inc. practice a total commitment to the environment. We promise to act as a responsible corporate citizen, optimizing the use of resources and manufacturing products that have a positive impact on the environment as well as the health of people. We seek to realize our Green promise at Windsor and Woodgrain through the following efforts:

- Purchase of materials with recycled components; optimizing the use of resources and recycling generated scrap.
- Careful planning of product distribution from locations in Iowa and North Carolina to reduce carbon emissions from vehicle transportation.
- Enforcement of Green philosophy throughout the company; from integration of environmentally friendly materials in our products to printing of marketing materials on recycled paper, and much more.
- Partnering with those who are like-minded in Green efforts.

Windsor Glazing System

Glass Washer

Fully-automated glass washing station removes impurities with multiple washing stages and final drying zone

Spacer Applicator

Fully-automated Super Spacer applicator ensures accurate positioning and constant depth of seal on all four sides of the window

Grille Station

Fully-automated Inner-Grid Machine forms coil stock into profile and sequentially cuts each segment with appropriate end work and punches; attendant places the assembled grid on glass before sheets are insulated

Fill Chamber and IG Press

Fully-automated assembling/matching press with integrated argon gas flood chamber ensures consistent gas fill rates

Secondary Sealing Robot

Sealing robot for precise application of hot melt butyl secondary seal

Windsor's Glazing System offers builders a well-engineered window that is superior in energy efficiency and competitive in price. The highly-automated glass line is tightly monitored throughout the entire process with rigorous quality controls. Three sophisticated technologies will be brought into our plants: a highly-automated fabrication equipment process from Liseç, high-performance glass from Cardinal® and an advanced Super Spacer® all-foam edge application from Edgetech.

State-of-the-Art Liseç® Glass Fabrication Equipment

Our highly-automated glass line requires no manual manipulation – dramatically reducing seal failures caused by human contact with the glass – while our robotic equipment provides an incredible level of accuracy for a fast and efficient material flow.

Super Spacer® Technology

Super Spacer dual-seal moisture barrier technology provides one of the most thermally efficient spacers in the marketplace, meeting or exceeding ENERGY STAR® guidelines in all zones. All-foam Super Spacer reduces heat and cold conduction, which results in more comfortable living for homeowners and fewer callbacks for builders.

BEST OVERALL U-VALUE IMPROVEMENT

Super Spacer®

Reverse dual-seal technology

Airspace is not filled with argon in products with breathing tubes.

Cardinal® LoE 366 Glass

Windsor products feature LoE 366 glass with a coating that alters the way glass transmits visible and invisible light. LoE 366 decreases heat loss in the winter and heat gain in the summer. Reduced ultraviolet light penetration also helps prevent your furniture, drapes and carpet from fading.

If you're searching for Dual Low-E and tempered insulated glass, look no further than Windsor. Combining Cardinal LoE 366 soft coating with Cardinal i89 LoE, the Dual Low-E glazing option creates clear, insulated glass with superior performance.

ENERGY STAR® Partner

Windsor Windows & Doors is proud to be an ENERGY STAR partner. Look for the ENERGY STAR logo on our products, which means those models meet EPA guidelines for energy efficiency. Performance data is available on our website at www.windsorwindows.com.

Pinnacle and Pinnacle Select

The Finest Wood Materials for the Finest Homes

The wood interiors of our Pinnacle products are made from the finest pine, alder and fir. Choose from Clear Select Pine, specially treated for long life, the beautiful natural colors of Douglas Fir or attractive deep wood tones of Natural Alder. These exquisite woods will complement any home's décor for years to come.

Clad

Our top-of-the-line Pinnacle wood clad windows and doors offer a large selection of styles and shapes. The exterior comes in either a primed wood, cellular PVC or low-maintenance extruded aluminum cladding in 23 standard colors, 20 feature colors or 7 matte color finishes. To meet today's design styles, custom color matching is always available.

Select

Pinnacle Select is an elite line of aluminum clad windows and doors constructed from enhanced components for unsurpassed performance. Select windows are available in casement and awning styles and feature robust profiles for architectural appeal, dimension and strength. Additional options include push-out functionality and innovative retractable screens perfect for a wide variety of homes. Select doors are available in multi-slide, swinging and bi-fold options and are built to grand scale for today's majestic architectural homes.

www.windsorpinnacle.com.**

Pinnacle Select Casement & Awning

Benefits of Pinnacle Select

- Clear Select Pine, Douglas Fir or Natural Alder interior
- Constructed with 2-5/16" wide stiles and rails that add structural stability and provide a more massive architectural appearance
- Robust 2-3/16" thick sash adds dimension and strength; for Select units with 1-1/4" OA triple IG, the sash thickness increases to 2-7/16"
- Double mortise and tenon sash joints fastened with screws for strength and stability
- Select casement and awning available in larger sizes
 - Crank-out: up to 3096, 3684 or 4272
 - Push-out: up to 3678
 - Venting awning: up to 6060
- Select casement and awning available in two styles
 - Operating: standard crank
 - Push-out: lever handle
- Retractable screens available on operating and push-out products; pull bar, cartridge case and frame of screen produced from same wood species as window

- Windsor Glazing System provides 3/4" double pane insulated glass
 - Cardinal® LoE 366 glass standard
 - Select units with triple IG option feature 1-1/4" OA insulated glass
 - Tinted, tempered, obscure and laminated glass available

Features of Push-out Units

- Push-out hardware consists of an easy-to-operate lever with cam rollers and keepers; this mechanism provides a multi-point locking system that is standard

- Push-outs equipped with adjustable friction hinges and lock rollers in both casement and awning
- Friction device on larger push-out awning maintains sash opening
- Push-out casement provides an impressive DP rating of 50 for all sizes
- DP rating of push-out awning range from 40 up to 70

Features of Operating Units

- Operating casement uses adjustable hinges
- Operating casement provides an amazing DP rating of 70 (*except for the 3678, which has a DP rating of 50*)
- DP rating of operating awning is 50 for all sizes

Finishes

- Interior – Available in Clear Select Pine, Douglas Fir or Natural Alder
 - Primed: white or black
 - Painted: white, black or gray
 - Stained: 9 color options
- Exterior – Select windows feature heavy-duty extruded aluminum cladding on sash and frame

Clad Colors

- All clad colors painted in-house with the highly durable AAMA 2604 standard finish, or upgrade to AAMA 2605 for the most challenging of environments
- 23 Standard Clad Colors available in 2604 and 2605 finish
 - 20 Feature Clad Colors available in 2604 and 2605 finish (Custom color matching is also available)
 - 7 Matte Clad Colors available in the 2604 finish only

Pinnacle Select French Push-out Casement

Benefits of Pinnacle Select

- Clear Select Pine, Douglas Fir or Natural Alder interior
- Constructed with 2-5/16" wide stiles and rails that add structural stability and provide a more massive architectural appearance
- Robust 2-3/16" thick sash adds dimension and strength; for Select units with 1-1/4" OA triple IG, the sash thickness increases to 2-7/16"
- Double mortise and tenon sash joints fastened with screws for strength and stability
- Available in sizes from 3624 up to 6072
- Available in OX and XO handings

- Retractable screens available; pull bar, cartridge case and frame of screen produced from same wood species as window
- Windsor Glazing System provides 3/4" double pane insulated glass
 - Cardinal® LoE 366 glass standard
 - Select units with triple IG option feature 1-1/4" OA insulated glass
 - Tinted, tempered, obscure and laminated glass available
- Hardware consists of easy to open lever with cam roller on primary active sash; secondary active sash incorporates a lever activated head/sill engaged looking system
- All French push-out casements are standard with egress adjustable friction hinges to maximize sash opening
- Seacoast hardware is standard

Finishes

- Interior – Available in Clear Select Pine, Douglas Fir or Natural Alder
 - Primed: white or black
 - Painted: white, black or gray
 - Stained: 9 color options
- Exterior – Select windows feature heavy-duty extruded aluminum cladding on sash and frame

Clad Colors

- All clad colors painted in-house with the highly durable AAMA 2604 standard finish, or upgrade to AAMA 2605 for the most challenging of environments
- 23 Standard Clad Colors available in 2604 and 2605 finish
 - 20 Feature Clad Colors available in 2604 and 2605 finish (Custom color matching is also available)
 - 7 Matte Clad Colors available in the 2604 finish only

Pinnacle Select Triple Insulated Glass Glazing Option

- Select windows are constructed with 2-5/16" wide stiles and rails that add structural stability and provide a more massive architectural appearance
- A robust 2-7/16" thick sash adds dimension and strength and will accommodate a 1-1/4" triple IG unit
- Double mortise and tenon sash joints are fastened with screws for strength and stability
- Each triple IG unit comes standard with Cardinal® LoE 366 glass (surface #2) and LoE 180 (surface #5) for superior thermal performance
- LoE, LoE obscure, LoE reed, LoE rain, LoE glue chip and LoE satin etch glass options are available
- Size limitations on Select windows with triple IG:
 - Casement operating and push-out: up to 3678 frame size
 - Awning: up to 4836 frame size
 - Casement picture: up to 7278 frame size
- Select windows ordered with triple IG are available with the same options and features as standard Select products
- Triple IG is also available in Pinnacle clad direct set and radius products

Multi-slide Alum Ext. Alum Int. Panel

Pinnacle Casement & Awning

Features and Benefits

- The warmth and beauty of Clear Select Pine, Douglas Fir or Natural Alder; can be painted or stained
- Clad units offer a strong, durable extruded aluminum sash and frame for low maintenance; primed units offer the traditional appearance where the trim and exterior sash are cellular PVC
- Glass is replaceable in case of damage
- 2" thick sash adds beauty and increases insulating value
- Exterior tape glazing slows conduction of heat/cold through edge of glass; two beads of silicone ensure a water tight seal that creates three seals between glass and sash
- Single lever, sequential, multi-point lock for sleek look and easy operation

- Adjustable concealed hinge system ensures smooth operation

- 1-1/4" jamb creates unmatched strength and stability
- Silicone-injected frame corners create a stronger and more attractive joint

Sizes

Available in hundreds of standard and custom sizes

Glazing

- Windsor Glazing System provides 3/4" double pane insulated glass; Cardinal® LoE 366 glass standard; tinted, tempered, obscure and laminated glass available
- Glazed with tape and silicone sealant

Pinnacle Double Hung with Concealed Jambliner

Improved Performance

- A raised sill stop is incorporated into ALL Pinnacle clad double hung windows, including both the compression jambliner option and the concealed jambliner option; the sill stop will now be flush with the bottom of the finger pull, providing better performance
- On windows ordered with the concealed jambliner option, head frame corners will be secured with corner keys, injected silicone and screws for improved stability; therefore, the corner gaskets are no longer needed
- Structural changes of the concealed jambliner provide improved DP ratings

More Selection

- Half-screens will be available on the concealed jambliner option
- A new, full-size, inverted block and tackle balance provides support for a heavier sash, allowing for future production of larger sizes
- Interior jamb covers are available in all wood species, providing more wood on the interior and less vinyl

Added Convenience

- Jamb jacks provide the ability to make future adjustments after settling
- A trim identification line on the side and head inside stops provides easy alignment during installation

Enhanced Appearance

- A wood head parting stop replaces a vinyl parting stop
- The picture window back-out strip is now color-matched aluminum for a consistent exterior appearance
- The sill bottom rail weatherstrip is now available in two colors: bronze and beige; one complements the lighter clad colors and the other complements the darker clad colors
- Exterior jamb covers are available in finishes that match the aluminum

Double hung window with concealed jambliner

Picture window with jamb cover

Please note:

- *Clad single hung oriel windows will only be available with the concealed jambliner option*
- *The concealed jambliner option is NOT available in Legend HBR or Revive Sash Replacement*

Pinnacle Double Hung & Glide-by

Features and Benefits

- The warmth and beauty of Clear Select Pine, Douglas Fir or Natural Alder; can be painted or stained
- Clad units offer a strong, durable extruded aluminum sash and frame for low maintenance; primed units offer the traditional appearance of decorative cellular PVC trim
- Glass is replaceable in case of damage
- Both tape and silicone glazed, with interior wood stops for superior strength and seal
- EZ Tilt operation available for easy removal and replacement of sash (double hung only)

- Both sashes tilt in with compression or concealed jambliner for easy cleaning
- Recessed lock and keeper for a sleek appearance

- Block and tackle balance system for ease of operation
- Prime double hung units come standard with cellular PVC trim, blind stop and sill
- No-finger pull option for hardware application

Sizes

Available in hundreds of standard and custom sizes

Glazing

- Windsor Glazing System provides 3/4" double pane insulated glass; Cardinal® LoE 366 glass standard; tinted, tempered, obscure and laminated glass available
- Glazed with tape and silicone sealant
- Custom and special glass types available

Pinnacle Swinging Patio Door

Features and Benefits

- Stainless steel multi-point locking hardware option for added security
- Integral structural astragal allows for doors up to 12 feet wide to be placed in a single frame, which decreases the potential for air and water infiltration
- "Easy Adjust" hinge system for effortless operation and correction after installation
- Wept sill system to eliminate water infiltration
- Dual-seal frame weatherstripping at panel face and edge improves air and thermal performance
- Taller sill provides excellent water performance and design pressure ratings
- Foam-backed glazing bead prevents paint and stain from bleeding
- Active stiles constructed of an LVL core material for added strength and stability
- Panel exterior matches Pinnacle product line with consistent depth from glass to face of the panel for a clean, complementary appearance
- Panels available in traditional French or contemporary narrow stile
- Low clearance (ADA-approved) sill options
- In-swing and out-swing options available
- 1/2 and 3/4 lite available with flat or split panel option
- Seg-top available

Sizes

- Five standard heights: 6'8", 6'10", 8'0", 9'0" and 10'0" (9'0" and 10'0" doors available in French panels only)
- Custom sizes available

Glazing

- Windsor Glazing System provides 3/4" double pane insulated glass; Cardinal® LoE 366 glass standard; tinted, tempered, obscure and laminated glass available
- Interior stop glazed with silicone sealant
- Custom and special glass types available

- All panels standard with satin nickel finger pull located at the edge of the lead operating panel (*figure 2*)

Fig. 1

Fig. 2

All applications using multi-slide door systems require outdoor overhangs equal to or greater than the height of the multi-slide door.

When using the staggered sill option, a mop zone on the interior of the door is highly recommended, as this application can experience water infiltration under certain conditions.

Pinnacle High-Performance PG Rated Products

Our high-performance double hung windows offer innovative design features such as a deep sill stop, reinforced stress points that guard against water and wind damage and special warm-edge characteristics to reduce condensation.

Features and Benefits

- The warmth and beauty of Clear Select Pine, Douglas Fir or Natural Alder; can be painted or stained
- Clad units offer a strong, durable extruded aluminum sash and frame for low maintenance; primed units offer the traditional appearance of decorative trim
- Glass is replaceable in case of damage
- Both tape and silicone glazed, with interior wood stops for superior strength and seal
- EZ Tilt operation available for easy removal and replacement of sash
- Recessed lock and keeper for a sleek appearance
- Block and tackle balance system for ease of operation
- Both sashes tilt in with compression or concealed jambliner for easy cleaning
- No-finger pull option for hardware application

Sizes

Available in hundreds of standard and custom sizes

EZ Tilt operation available for easy removal and replacement of sash

Recessed lock and keeper for a sleek appearance

Pinnacle, Legend and Legend HBR:

- Casement and awning
- Casement and awning picture
- Double hung
- Double hung picture

Pinnacle Select Impact Casement & Awning

Features and Benefits

- Clear Select Pine, Douglas Fir or Natural Alder interior
- Constructed with 2-5/16" wide stiles and rails that add structural stability and provide a more massive architectural appearance
- Robust 2-3/16" thick sash adds dimension and strength
- Double mortise and tenon sash joints fastened with screws for strength and stability
- Select casement and awning available in two styles
 - Operating: standard crank
 - Push-out: lever handle
- Retractable screens available on operating and push-out products; pull bar, cartridge case and frame of screen produced from same wood species as window

- Full-width extension jambs standard
- Push-out hardware consists of an easy-to-operate lever with cam rollers and keepers; this mechanism provides a multi-point locking system that is standard*

- Push-outs equipped with adjustable friction hinges and lock rollers in both casement and awning
- Friction device on larger push-out awning maintains sash opening
- Operating casement uses adjustable hinges
- Certified against hurricane blasts: Laminated glass allows unit to crack instead of shatter when under great pressure
- Meets and exceeds building codes for extreme coastal environment conditions
- Laminated glass dampens sounds from traffic, neighbors and the outdoors
- Preserve protective film standard

Sizes

Available in hundreds of standard and custom sizes

Glazing

- Glazed with tape and Dow Corning® 955 silicone sealant – the strongest silicone bonding agent available
- Cardinal Sea-Storm® LoE 366 insulated glass standard, featuring stainless steel spacers; tinted, tempered and laminated glass available
- Custom and special glass types available
- Insulated glass utilizes annealed glass on exterior and laminated glass on interior
- Laminated glass features PVB inner layer on operating units with optional SGP inner layer; fixed units feature SGP inner layer

Exterior Trim

- Clad windows available with WM 180 brickmould, Williamsburg or 3-1/2" flat casing; 3/8", 1-1/4" and 2-1/4" subsill available

Pinnacle Clad Impact Casement & Awning

Features and Benefits

- Clear Select Pine interior
- Clad units offer a strong, durable extruded aluminum sash and frame for low maintenance
- Glass is replaceable in case of damage
- 2" thick sash adds beauty and increases insulating value
- Exterior tape glazing slows conduction of heat/cold through edge of glass; two beads of silicone ensure a water tight seal that creates three seals between glass and sash
- Single lever, sequential, multi-point lock for sleek look and easy operation

- Adjustable concealed hinge system ensures smooth operation
- 1-1/4" jamb creates unmatched strength and stability
- Silicone-injected frame corners create a stronger and more attractive joint
- Certified against hurricane blasts: Laminated glass allows unit to crack instead of shatter when under great pressure
- Meets and exceeds building codes for extreme coastal environment conditions
- Laminated glass dampens sounds from traffic, neighbors and the outdoors
- Preserve protective film standard

Options & Accessories

Finishing touches to perfect your vision. Windsor does more than just create durable, high-performance windows and doors. We pay attention to every detail and offer a wide array of options and finishes to match any décor. Flashy and eye-catching or simple and understated, our hardware, finishes, grille options, cladding colors, glass options and trim options complete the perfect window and door package.

Windsor's in-house powder paint application can help you make a statement with your windows and doors. Choose from over 50 shades in our standard and feature color palettes, or make it truly unique with custom color matching or our matte finish colors. All paints are protected with the highly durable 2604¹ finish, or you can upgrade to 2605² for even stronger defense against the elements.³

SCREENS Pinnacle Windows | Pinnacle Patio Doors

All exterior-applied screens for Pinnacle double hung, glide-by and sliding patio doors come with screen frames matching the clad color of the unit. Interior-applied screens for Pinnacle casement and awning windows have screen frames available in champagne, white, bronze, black, wood-veneered pine, wood-veneered alder or wood-veneered fir.

Conventional Screen Mesh

BetterVue® (Standard)

UltraVue®

SCREENS Pinnacle Select Windows

Windsor's standard BetterVue screen material provides improved visibility, airflow and insect resistance. Operating units are available with a standard screen or a retractable screen option. Standard screens are pressure mounted to fit within the frame of the window and are easily installed and removed. Push-out casements and awnings are available with a retractable screen. Retractable screens are available in pine, alder and fir wood species and have a solid wood pull at the bottom of the screen for easy operation. These spring-loaded units pull down from the top and lock into place at the sill. All interior tracks and covers come standard with species matched wood veneer.

Legend and Legend HBR

The Look of Real Wood with Unmatched Durability

Highly resilient CPVC construction keeps Legend windows free from rotting, warping, cracking, sticking and swelling, even in the harshest conditions. With fine attention to detail, including a variety of trim and grille options, Legend's traditional beauty and solid wood feel make it suitable for use in many historical renovations.

Available in casement, double hung, direct set and radius windows with hundreds of standard sizes and various custom sizes, along with specialty designs for coastal regions, you're sure to find a Legend window suited to your every need.

Hybrid (HBR)

Blending the strength of the Legend CPVC frame with a wood clad sash, Legend HBR from Windsor represents the next advancement in hybrid window and door technology.

Beautiful wood craftsmanship and the paintable exterior cellular PVC frame make Legend HBR a versatile choice for use in replacement, new construction or historical applications.

Legend HBR windows and doors are packed with features, including:

- Cellular PVC blind stops
- Extruded clad wood sash
- Standard, feature and custom colors

Additionally, you can mix and match styles and colors to complement your design vision by taking advantage of contrasted frame colors and rough openings identical to those of our standard Legend windows.

See what sets Legend apart at
www.windsorlegend.com

Legend

Give your home legendary beauty and quality with Windsor's Legend product line. These finely crafted windows provide your home with the look and feel of painted wood, but provide the outstanding, long-lasting performance of cellular PVC.

Features and Benefits

- Engineered, high-endurance cellular PVC materials will not decay, warp, crack, stick or swell
- UV protectors and impact modifiers incorporated into cellular PVC material enhance durability
- Finely crafted details, like sloped sill with sill nosing, offer traditional beauty and solid density of real wood
- Solid cellular PVC construction carries 25-year guarantee
- High-performance option available
- Energy efficient double hung balance allows top and bottom sashes to tilt for easy cleaning
- Easy installation with nails or screws
- Perfect for new construction or replacement of double hung windows; approved for historic renovation
- Integral finger pulls in double hung top and bottom sash offer easy opening and closing
- No-finger pull option in bottom sash for traditional or historical appearance
- Standard EZ Tilt operation on both the top and bottom sash; both sashes tilt in for easy cleaning
- Block and tackle balance on standard EZ Tilt is quiet, secure and operates smoothly
- Interlocking meeting rails for enhanced air and structural performance
- Dual-seal weatherstrip at bottom end rail
- PVC cap stock sash, sill and exterior stops
- Taller double hung exterior stops fully hide edge of jambliner

Sizes

Available in hundreds of standard and custom sizes

Glazing

- Windsor Glazing System provides 3/4" double pane insulated glass; Cardinal® LoE 366 glass standard; tinted, tempered, obscure and laminated glass available
- Interior stop glazed with silicone
- Custom and special glass types available

Legend HBR

Windsor's finely crafted windows combine the traditional beauty of our Legend frame and low-maintenance aluminum clad sash with a stain-grade wood interior.

Features and Benefits

- 25-year CPVC warranty against rotting, warping, cracking or swelling
- Cellular PVC exterior with extruded clad sash
- Extruded aluminum in 23 standard colors, 20 feature colors or 7 matte colors. Custom color matching also available
- Architectural trim available in a variety of CPVC casing and sill options, providing a historically accurate appearance
- Factory-applied trim details save significant time and cost
- Rough openings are identical to standard Legend windows, making it easy to mix and match on the same job
- Standard EZ Tilt operation on both the top and bottom sash; both sashes tilt in for easy cleaning
- Block and tackle balance on standard EZ Tilt is quiet, secure and operates smoothly
- High-performance option available

Sizes

Available in hundreds of standard and custom sizes

Glazing

Next Dimension

The Versatility of Vinyl

Next Dimension's advanced vinyl technology ensures easy operation, superior energy efficiency, low maintenance and high performance. Our products are built with vinyl extrusions that ensure superior weathering, durability and color retention. Next Dimension also uses Windsor's Super Spacer® technology and Cardinal® LoE 366 glass, which provides a glazing system that is top-of-the line in terms of energy efficiency. With several hardware and finish options available – including interior and exterior painted vinyl color options – our Next Dimension line offers a vinyl solution for any application.

Signature

Next Dimension Signature gives you a wide array of looks and hardware styles to mix and match, including products offered in half round, trapezoidal and octagonal configurations. Next Dimension windows and doors are built with quality and low maintenance in mind, using heavy vinyl extrusions to add outstanding strength and stability to our structural performance. Superior construction and lasting good looks ensure your windows and doors perform as well as they look.

Classic

Next Dimension Classic is your ticket to a traditional look for your design but with the same level of quality engineering, construction, durability and performance characteristics of all Next Dimension vinyl products. Classic windows and doors are built to retain their look season after season, ensuring your architectural vision holds true.

Pro

Next Dimension Pro windows offer an ideal balance of appealing style, reliability, energy efficiency and cost. Uniquely suited for use in multi-family, residential and light commercial applications, Next Dimension Pro windows and doors are a great substitute for aluminum. The distinguishing feature of Pro products is our Uniframe construction. Through the use of special frame components and a common T-mull design, Pro products are built with improved strength and performance, while offering greater aesthetic appeal over mullered units.

**See what sets Next Dimension apart at
www.windsornextdimension.com.**

Next Dimension Signature Casement & Awning

Features and Benefits

- Thick, multi-chambered extrusions add strength and decrease air infiltration
- Air spaces in chambers provide for superior energy efficiency
- 3-1/4" frame width; integral, rigid, pre-punched nail fin for easy installation
- Fusion-welded frame and sash for strong, leakproof construction
- Integral weep system for sleek appearance; no flaps, sponges or screens
- Easy-to-remove full screen with unique plunger-type engagement

Sizes

Our Quality is in the Details

[1] MULLION POST Next Dimension Pro windows utilize an aluminum reinforced T-bar mullion post between two windows to provide an attractive appearance, added strength and to prevent air and water infiltration.

[2] DRYWALL RETURN This accessory provides a groove for drywall to slide into, providing a sleek, finished interior edge.

[3] INTEGRAL J-CHANNEL (*Pro & Classic Only*) Provides a smooth, finished edge for vinyl siding applications. Available on single hung, slider, picture and radius.

[4] DRIP CAP Just another detail we added to the top of the mull to ensure water stays out.

[5] GRILLES 3/4" profiled aluminum grilles are color matched to the unit and installed within the insulated glass airspace. This provides the look of authentic divided lite and allows for easy cleaning. 5/8" and 7/8" putty simulated divided lite grilles are available in Signature and Classic windows.

[6] EXTENSION JAMBS Extension jambs are available in pine and oak for stained interiors or in white for painted interiors. These are available as a separate kit or applied.

[7] SLIDING PATIO DOOR HARDWARE Our patio door handles feature a versatile "D" shape in white, clay, satin nickel, faux bronze or black to coordinate with your door color.

[8] WINDOW HARDWARE The beauty of Next Dimension windows is carried right down to the sleek design of our hardware. They are available in clay, white or black to match the units.

[9] BLINDS BETWEEN THE GLASS (*Patio Door Only*) Control light and privacy with blinds between the glass. This no-cord, easy-to-clean option adds lift and tilt features, simple operation and long-lasting performance.

[10] EASY-OUT™ SASH SYSTEM (*Pro Only*) A feature unique to Next Dimension Pro models, the Easy-Out Sash System is designed for easy removal of the entire lower sash, making installation and replacement easier than ever. And, the Easy-Out Sash System's pocket design creates consistent pressure against the weatherstrip, meaning no loss in air and water performance.

Options & Accessories

Finishing touches to perfect your vision. Windsor does more than just create durable, high-performance windows and doors. We pay attention to every detail and offer a wide array of options and finishes to match any décor. Flashy and eye-catching or simple and understated, our hardware, finishes, grille options, vinyl colors, glass options and grille patterns complete the perfect window and door package.

Revive

Breathe New Life into Your Home

No matter the age of your home, you want to preserve its appearance for a lifetime. When it comes to replacing drafty, inefficient windows, our Revive Pocket Replacement line of products offers a perfect solution.

Imagine transforming each window in your home with stunning Windsor quality, installed perfectly without spoiling your home's existing wood trim or exterior features. Our meticulous build to order process means your Revive Pocket replacement windows will provide a fast, uncomplicated upgrade.

Available in aluminum clad, hybrid and vinyl options, each window installation takes about 1 hour. With hundreds of hardware, finish and trim options, Revive is a perfect remodeling choice for the life – and love – of your home.

See what sets Revive apart at
www.windsorrevive.com.

REVIVE™

REPLACEMENT WINDOWS

Revive Wood Clad Double Hung Pocket Replacement Window

Features and Benefits

- **Stainable and paintable natural wood interiors** – Choose from Clear Select Pine, Natural Alder or Douglas Fir
- **Sleek appearance and clean lines** – Recessed lock, keeper and tilt latch won't get in the way of your view
- **Low-maintenance exteriors** – Heavy-duty aluminum cladding protects the sash and pocket frame
- **Easy cleaning** – EZ Tilt sash makes washing the outside glass more convenient
- **Concealed jambliner** – Enhances window's appearance with the warmth of wood on the interior and color-matched aluminum cladding on the exterior
- **Easy sash operation** – Full-sized block and tackle balance system allows sash to smoothly glide open and closed
- **Exceptional structural stability** – Head frame corners are keyed, screwed and silicone-injected
- Full- or half-screen options

Sizes

Available in custom sizes

Glazing

- 3/4" inch double pane insulated glass comes standard with energy efficient Cardinal® LoE 366 coating; tinted, tempered, obscure and laminated glazing options available

Revive Wood Clad Casement & Awning Pocket Replacement Window

Features and Benefits

- **Stainable and paintable natural wood interiors** – Choose from Clear Select Pine, Natural Alder or Douglas Fir
- **Sleek appearance and clean lines** – Single lever, sequential, multi-point lock for sleek look and easy operation
- **Low-maintenance exteriors** – Heavy-duty aluminum cladding protects the sash and pocket frame
- **Excellent thermal performance** – Exterior tape glazing slows conduction of heat/cold through edge of glass; two beads of silicone ensure a water tight seal that creates three seals between glass and sash
- **Easy sash operation** – Adjustable concealed hinge system ensures smooth operation
- **No crank handles to get in your way** – Recessed crank handle nests in the operator cover housing, keeping it out of the way of window treatments
- **Exceptional structural stability** – 2" thick sash adds beauty and increases insulating value; 1-1/4" jamb creates unmatched strength and stability; silicone-injected frame corners keyed and screwed to create a strong, water tight joint
- **Side stop functionality** – Side stops held in place with kerf and barb for easy removal and replacement

Glazing

- 3/4" inch double pane insulated glass comes standard with energy efficient Cardinal® LoE 366 coating; tinted, tempered, obscure and laminated glazing options available
- Double glazing and interior wood stops lend superior strength and sealing against moisture and air
- Custom and special glass types available
- Preserve protective film optional

Revive Sash Replacement Kits

Three easy steps to install your new windows.

Replace old, drafty, inefficient double hung sashes with energy-efficient, dual pane sashes. Windsor's Revive Sash Replacement Kits make it easy. Each kit allows you to keep your existing interior trim and plaster in place. In addition, you have a choice of three replacement sashes: versatile primed wood; durable aluminum clad or; long-lasting, hassle-free cellular PVC. All sash options feature EZ Tilt for fast access and effortless cleaning. No matter your choice of Revive Sash Replacement Kit, you'll instantly improve the beauty, energy efficiency and upkeep of your home's windows.

STEP ONE: Measure Opening

Quick and minimally invasive installation

Note: Windsor's Revive Sash Replacement Kits are designed to replace wood double hung windows. The wood side jamb pocket depth between the inside stop and the outside stop MUST measure at least 3-3/8" to accommodate the Revive sash replacement jambliner and clip.

STEP TWO: Remove Old Sash

STEP THREE: Install New Sash

Options & Accessories

Windsor's in-house powder paint application can help you make a statement with your windows and doors. Choose from over 50 shades in our standard and feature color palettes, or make it truly unique with custom color matching or our matte finish colors. All paints are protected with the highly durable 2604¹ finish, or you can upgrade to 2605² for even stronger defense against the elements.³

STANDARD CLAD COLORS (REVIVE WOOD CLAD & HYBRID) Available in 2604 and 2605 finish.

FEATURE CLAD COLORS (REVIVE WOOD CLAD & HYBRID)

Available in 2604 and 2605 finish. Custom color matching is also available.

MATTE CLAD COLORS (REVIVE WOOD CLAD & HYBRID)

Available in the 2604 finish only.

¹AAMA 2604 finish backed by a 20-year warranty. ²AAMA 2605 finish backed by a 30-year warranty. ³For applications within one mile of the coast, AAMA 2605 finish will carry a 10-year warranty and AAMA 2604 will carry no warranty. For specific warranty details, please refer to the complete warranty document posted on our website, www.windsorwindows.com.

PATIO DOOR HANDLES, HINGES AND WINDOW HARDWARE (REVIVE WOOD CLAD & HYBRID)

Finishes marked with asterisks* feature a clear coating that protects the finish against tarnish and peeling. This process extends the rich, bright life of the finish and dramatically delays the aging process. (Photos show Satin Nickel finish.) Bi-fold doors are available with the contemporary swinging handle in Satin Nickel, Brass and Oil Rubbed Bronze.

PATIO DOOR HANDLE STYLES

Available in all 10 door handle finishes, unless noted.

- [1] Classic Swinging Door Handle
- [2] Contemporary Swinging Door Handle
- [3] Euro Swinging Door Handle
Only available in Satin Nickel and Black door handle finishes.
- [4] Contemporary Sliding Door Handle
- [5] Euro Sliding Door Handle
Not available in antique nickel.
- [6] Flush Mount Sliding Door Handle
Only available in Satin Nickel, Faux Bronze, Oil Rubbed Bronze and Black door handle finishes.

SWINGING PATIO DOOR HINGES

Available in all 10 door handle finishes.

- [7] Adjustable Guide Hinge
- [8] Adjustable Set Hinge
- [9] Ball Bearing Hinge

WINDOW HARDWARE STYLES

[10] Double Hung Lock

Available in all eight window hardware finishes.

[11] Traditional Casement/Awning Crank

Available with matching lock in all eight window hardware finishes.

[12] Contemporary Casement/Awning Crank

Available with matching lock in all eight window hardware finishes.

PATIO DOOR HANDLE AND HINGE FINISHES (REVIVE WOOD CLAD & HYBRID)

1. Custom sizes in 1/4" increments. Kit may be adjusted to fit sash opening width 1/4" (max.) wider than standard size, via jambliner adjustment. The sash opening height cannot vary from standard. Openings larger than standard must be shimmed to standard size; smaller heights must be ordered as custom size.
2. Other glass options available; contact your Windsor distributor/dealer.
3. The insect screen is constructed of painted aluminum. Screen size ordered separate of the sash. The screen utilizes plungers, which need to engage grommets/holes in the exterior trim to hold the screen in place. These grommets/holes need to be installed on site and are not included.
4. Must specify bevel: 10° minimum/20° maximum.
