## Identification of any third party laboratory on whose testing the certificate depends:

Generally, this section should be labeled "N/A" for a GCC because a third party testing is not a requirement for non-children's products. (It is only a requirement for children's products and must be included in a CPC.) However, if a certifier voluntarily uses test results from a third party laboratory as the basis for issuing its GCC, the law requires that the certifier must then provide the name, full mailing address, and telephone number of the third party laboratory.
