

MPLACE

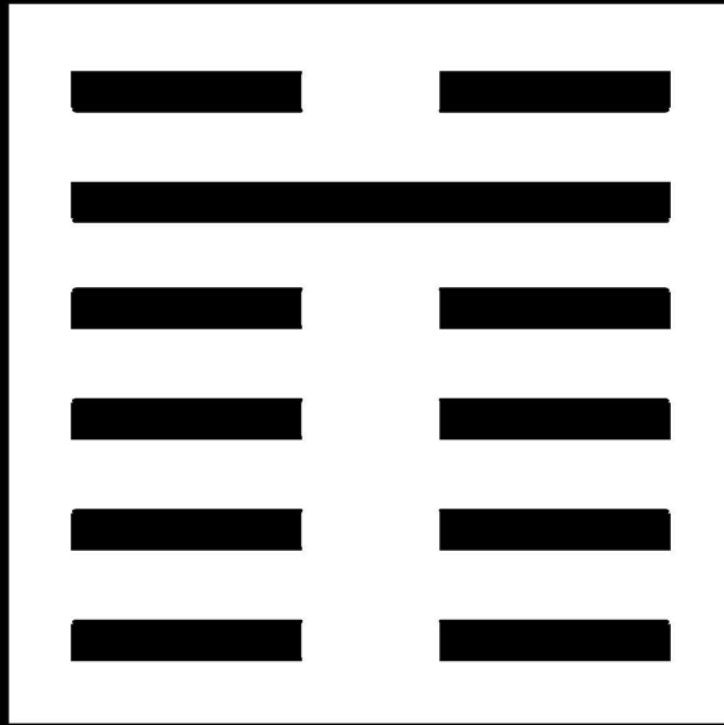

collection

Mplace is a place, not a common one, is your ideal place which represents yourself in full, your taste, your goals, your way of living. A place made of elements, objects and pieces of furniture that, like instruments of a huge orchestra, come together and give life to a harmonic language, made of valuable materials and dashing details that melt without solution of continuity.

Mplace is one point of arrival and of departure to your tomorrow, able to create new energy and new hope. The pureness of thought and Oriental shapes that meet the Western traditional rationalism, giving birth to essential forms, that bring Mplace design unique in its genre, able to originally and personally dress rooms and architectural livings inspired by the East, in full coherence with the style and unmistakable mark of the designers.
