ABOUT DEARIER

When the complaints from his wife, Susie, came to Dr. Lau for the 3rd time, he knew there must be something serious with them. The complaints were about the beauty devices his wife was using, which were cheap but of no effect, and the ones she wanted to buy were too expensive to afford.

It led to Dr. Lau's research and investigation on the market and industry, and he found two key industry characteristics:

01. The high-end home-use beauty devices have very high profitable margin.

02. The cheap and ineffective products is filling up the market.

Dr. Lau decided to integrate innovative technologies, high quality, stylish design and decent price into a new brand. A brand has the mission to help women to combat skin aging and improve facial attractiveness.

The brand is named Dearier with a "dear" in it, which is Dr. Lau's special dedication to Susie.

Seeking to be a trusted skincare companion to its customers, what Dearier provides aren't just products but also great service.

After 2 years' R&D, Dearier launched the next generation of facial cleansing device, GLAMOUR 365. It's a smart multi-function facial cleansing device, specifically designed to deliver deep pore cleansing and more glowing skin using sonic and thermal technology.

Dearier always chooses the top supply chain to match the company value in the highest quality seeking.

Dearier is keen on cutting edge beauty science and technology and engineering them into the products.

Dearier applies the complimentary VISIA Complexion Analysis to ensure the designed effectiveness of all its products before its launch into the market.

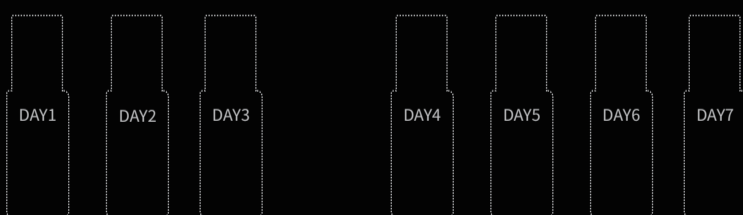

The brand motivation of Dearier is to make more women use affordable and prime beauty devices for their skincare, so Dearier refuses high profit margins and high prices.
