## Anavar And Test Prop Cutting Cycle - ONESTU

I have used clen, t3(not much), winny, dbol, anadrol, androlic, anavar, test en and test cyp in my past cycles. my cycle routine is: test prop 100mg eod 1-6 arimidex 0.5 ed 1-6 Anavar 60 mg 1-6 clen 100mg ed by pyramiding 2weeks on 2weeks of or using ketotifn after 2nd week. please advise on this proposed cycle. The thing about Test E and C is the long half life that can be troublesome. It takes a couple weeks for it to kick in and it takes a couple weeks before it is out of your system. You can use Test E/C @500mg/week and then the first 2 and the last 2 weeks you use Test P @ 100mg EOD. Or you could kick start/end with an Oral.

Im about to start a cycle where my main aim is to cut body fat and not put any weight on, if anything lose a kg or 2, my BF is around 12% and im 24 - Im going to stack Test Prop - 3ml a week, Anavar - 50-75mg daily, Stanozol tablets 30mg every 2nd day?? Have i got this cycle right or is there any improvements i can make before i start? Thanks. ~Samo845, 2011

Test Prop, Anavar & Clen Cycle. I am about 220, 11% BF. I want to do a cutting cycle but not lose too much size. So more or less just tone up & work on getting a 6 pack. Would Prop, Anavar and Clen be a good combination to get these results? [best site](#)
