## TMIX 200 - Trenbolone Blend - 200mg/mL - 10mL - A-Tech ...

Parabolin Blend - 200 is a potent lean mass builder and cutting agent. Trenbolone itself has always been the favorite pre contest drugs, regardless of the ester used in its delivery. It is because of it strong anabolic and androgenic and does not convert to estrogen. Also of it very high quality muscle gain plus fat loss instead of gain. Both the variants of Trenbolone are available in the form of intramuscular injections. Tren Acetate is available in doses ranging from 50-150mg and you should take it every other day. That amounts to an average of 400mg Tren in a week. Tren Enanthate is available in 200mg doses and should be taken thrice a week as well.
