MAKE YOUR HOME SMARTER WITH KAMONK

KAMONK

Kamonk is an IoT based Smart Home Brand, you can control your entire home using Kamonk App, Amazon Alexa, Google Assistant and Siri Shortcuts.

Main USP is that there is no automation related wiring needed. Make your home smart with regular 2.4 GHz Wi-Fi.

Any regular electrician can install this solution.

This eliminates the main drawback of tranditional automation, mainly, automation related wiring issues, high maintenance cost and time required to repair issues. In addition, project cost and time is saved.

From the Founder
-Anshum Khandelwal

LOGO

The logo of Kamonk is a half sphere in white with a pattern of dots criss-crossing in different colours. The white signifies freshness, empowerment and simplicity.

The pattern of dots refers to the interconnectedness of industries, ideas and people that fabricate the company, technology, clients, employees and sustainability.

The colours signify the spectrum of possibilities that lies with IoT space and how all different products function at one point.

The half sphere signifies the world of limitless futures. An encompassing vision of allowing for openness and inclusivity, with a history that we respect and learn from.

Kamonk is the future in IoT space, the kind that is here to stay and lead.

ABOUT THE PRODUCTS

Energy Efficient : The products and integrated smart solutions of Kamonk assist in building greener spaces and sustainable life by using the latest technology.

The product enables a system that is convenient as well as cost effective.

Accessibility : All Kamonk Smart Devices work on IoT technology. They are all compatible with Kamonk App.

Most Kamnok Products work with Amaon Alexa and Google Assistant. Add shortcuts to Siri on iPhone iOS 12 and its subsequent versions using Kamonk App.

KAMONK

VISION

Kamonk aims to make life more efficient, sustainable and greener by focusing on control, productivity and integrated smart solutions.

MISSION

Kamonk aims to build smart home solutions with innovations, quality and the latest technology through its valuable relationships with stakeholders with a focus on growth, and dynamic work culture.

KAMONK

WHAT WE DO

Kamonk is an Indian Smart Home Brand dealing with IoT products and integrated smart solutions, making it possible to control all your devices with a single app & Voice Control.

With a focus on the productivity and innovation, Kamonk provides value-for-money products along with latest technology and highest quality standards.

WHY WE DO

The world is changing everyday with newer innovations and technological solutions. It is not only wise to change with the world to move forward, it is also beneficial to us financially and ecologically.

Kamonk was founded by Anshum Khandelwal on this idea. It aims to provide affordable and reliable products that contributes to greener spaces and hence, a sustainable future.

Kamonk offers consistency in quality standards and reliability in its products. It contributes to a modern and streamlined design and caters to the ever-changing needs of the customer.

- **How much does it cost?**
  - Approx. INR 30,000 per 3BHK — INR 12,00,000 per 3BHK
  - Approx. INR 4,000/room- 3 Lakh/room

- **We offer both economy as well as high end automation solutions, both reliable.**

- **We work closely with Interior Designers/Architects/Electrical Contractors/Real Estate Companies/Dealers.**

KAMONK

KAMONK SMART TOUCH SWITCH FEATURES

Access ways :

The Smart Touch Switch can be operated by

- **Manual Control** (without any internet connection).
- **Mobile App Control** Kamonk app (easy to setup yourself).
- **Voice Control** (compatible with **Amazon Alexa, Google Assistant, Siri Shortcuts**) (easy to setup yourself).
- Fast pairing with new Wi-Fi + BLE Module.
- The switch works with regular home 2.4 GHz Wi-Fi, no additional hub/automation related wiring required.

Schedules and Timers

The user can set multiple timers and schedule On and Off for each device at the stipulated time, i.e., set the timer to 'switch off in 30 minutes'.

Family Sharing

Create distinct places like 'home' and 'office' along with their locations. Create further rooms with their type and smart devices under them.

Smart Scenes

Customize scenes like Movie Nights or Office Hours according to your routine using the app, i.e., set scene to 'Night Time' and set 'Switch AC on'.

Smart and Automation Features

Customize unlimited smart scenes and automations settings using the Kamonk app, i.e., change the device settings according to the weather , job timing or when another device turns on or off, etc.

Group Control

Group devices together, i.e., group all the switches in a room or home together and manage them through one.

Child Lock

Activate the child lock function to ensure maximum safety for children.

Geofencing

Setup a task on basis of change of location (leaving/arriving home). E.g. Turn off Switch automatically when you leave home.
