

# Clove

**Botanical Name:** *Syzygium aromaticum*

Cloves come from dried flower buds of the evergreen clove tree. This spice is widely harvested in Tanzania, and Madagascar among other African countries. They have an intense aroma and a rich, bitter, pungent-sweet flavor. Cloves are commonly used in spices as well as tea blends.

Asami sources its cloves directly from small-scale farm co-ops in Africa. Cloves are an important spice and they are a rich source of polyphenols.

This ingredient is sourced from Nigeria.

**Now that you know more about Clove, you should check out our blends with clove. Serengeti Spice, Oduduwa**
