31	Tawa / तवा

Who we are..

We are **Param Upyog**, India's first health-oriented utensils brand, whose humble beginnings incepted with a trading & manufacturing business of Stainless Steel sheets three decades in the past by our founder Mr. Surender Goel under the name of M/s Goel Metals & Strips Co. Passage of time and growth in the industry oversaw the foundation of a new venture for export purposes in the form of M/s Harsh International.

Widely known and regarded for our distinction in maintaining quality like no other under the precious guidance of Mr. Goel, who with his extensive knowledge and experience of more than 35 years in the industry also spearheaded the establishment of **Paramparagat Upyogita®** to bring a glint of the long-forgotten Indic culture via our premium range of luxe brassware to rekindle the essence of the Sattvic way of life, **Param Upyog®** epitomizes the essence of practicality, durability and aesthetic with a vast range of products that are only made with the motivation to inspire and influence. But the prestige doesn't come with the leeway to skimp or cut back on the promise of quality and the craftsmanship that has become synonymous with the name of Param Upyog. The use of specially curated **Superior Quality Food-Grade Stainless Steel** which goes toes-to-toes, and is quite akin, with the quality used in more flourished economies, for example the USA, is quite unparalleled and unmatched in our country.

Quote by the Founder

We, at Param Upyog, consider it our duty to bring you products which are the perfect amalgamation of elegance and simplicity. Merely calling them 'Bartans' doesn't do justice to the effort, care and thought that goes into crafting each product. It is with nothing but pride that I ask you to give our products a welcome into your kitchen and feel the quality that you've just heard about until now.

-Surender Goel
